This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

IMPORTANT – READ CAREFULLY AND KEEP FOR FUTURE REFERENCE

Thank you for choosing our product. Please always read all the instructions provided carefully before use and remember the child's safety may be affected if you do not follow these instructions. The pushchair is suitable from birth up to 15kg (approx. 36 months), never overload.

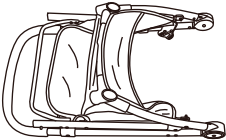

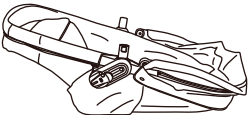

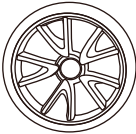

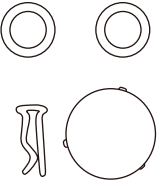

This product comply with EN1888-1:2018+A1:2022.

WARNINGS:

- Never leave the child unattended.
- Ensure that all the locking devices are engaged before use.
- To avoid injury ensure that the child is kept away when unfolding and folding this product.
- Do not let the child play with this product.
- Always use the restraint system provided and make sure the harness is correctly fitted.
- Always use the crotch strap in combination with the waist belt.
- This product is not suitable for running or skating.
- This seat unit can not be used as a carry cot, do not transported by hand(s) or move alone.
- For a new-born baby, the seat unit should be in the most reclined position. Please adjust the seat to a horizontal position and unfasten the buckle under the seat and behind the backrest when use in reclined carriage position.
- The parking device shall be engaged when placing and removing the children.
- The maximum permissible loading for the shopping basket is 2kg.
- Any load attached to the handle and/or on the back and/or on the side will affect the stability of the vehicle.
- Use the stroller for only one child at a time.

- Accessories which are not approved by the manufacturer shall not be used.
- Only replacement parts supplied or recommended by the manufacturer/distributor shall be used.
- Do not use if any part is broken, torn or missing.
- Avoid placing the pushchair near naked heat sources such as electric bar fires, etc. or where a child could gain access to any other kinds of hazards.
- Check that the pram body or seat unit or car seat attachment devices are correctly engaged before use.
- For car seats used in conjunction with a chassis, this vehicle does not replace a cot or a bed, Should your child need to sleep, then it should be placed in a suitable pram body, cot or bed.

Parts List

<div>A</div> <div></div> <div>Chassis x1</div>	<div>B</div> <div></div> <div>Seat unit x1</div>	<div>C</div> <div></div> <div>Bumper bar x1</div>
<div>D</div> <div></div> <div>Foot guard x1</div>	<div>E</div> <div></div> <div>Front wheels x2</div>	<div>F</div> <div></div> <div>Rear wheels x2</div>
<div>G</div> <div></div> <div>Rear wheel axle x1</div>	<div>H</div> <div></div> <div>Rear wheel fittings x2</div>	<div>I</div> <div></div> <div>Net x1</div>
<div>J</div> <div></div> <div>Car seat x1</div>		

1.Pull the handle bar up to unfold the chassis (A).

NOTE: The folding mechanism will “click” into place when the legs are fully extended.

2.Lean the chassis backwards and push each front wheel (E) assembly into the front wheel housing until the lock into place.

NOTE: Pull on the wheel assembly to ensure that it is securely attached to the chassis.

3a. Attach the rear wheel axle (G) to the chassis.

3b. Use the rear wheel fittings (H) for the next steps.

As illustrated, assemble a washer, followed by a rear wheel (F) and then another washer.

3c. Insert the cotter pin through end of the axle to secure. Finally attach the cover. Repeat steps for the other rear wheel.

Assemble of the seat

Insert the tube under the seat into the plastic slot until the spring plate pops out of the hole.

4.Align the seat unit (B) with the anchors on the side of the chassis and push them together until they “click” securely.

Press the release button as illustrated to remove the seat unit.

5.Attach the bumper bar (C) by aligning the anchors with the slots on the seat unit. Push until the bumper bar “clicks” into place.

NOTE: The bumper bar must be securely attached before using this product. Press the release button to remove the bumper bar.

6.Insert the bow of the canopy (D) into the anchors on the seat unit until it “clicks” into place. Fasten the snap buttons and do the zip.

Backrest Adjustment

The seat can be adjusted into upright, half-reclined and reclined positions. Pull up the recline lever on the rear of the seat unit and adjust the seat into the desired position.

NOTE: The footrest will adjust as the backrest is adjusted.

Seat attitude adjustment

Adjust the seat to a horizontal position and unfasten the buckle under the seat and behind the backrest when use in reclined carriage position.

NOTE : This seat unit can not be used as a carry cot, do not transported by hand(s) or move alone.

Reversible Seat Unit

The seat unit is reversible. It can be forward or parent facing.

Net installation

Just put the net on according to the picture.

Swivel Wheels

The front wheels are equipped with a swivel locking device. Push the button on each wheel up to fix the locks and push down to disengage the locks.

Brakes

To engage brakes, apply downward pressure to the brake lever located on the rear axle. Check that the stroller does not move once the brakes are properly applied.

To release, gently lift up on the brake lever.

Harness

1.Slide the shoulder strap buckle onto the housing of the waist strap buckle. Repeat for the other side.

2.Insert the completed buckle into the buckle housing until it engages securely in place. Listen for the “click”. Repeat for the opposite side.

3.Press the centre button to release child from harness.

4.To adjust the harness, move the slides as shown.

WARNING: Always adjust the harness to fit your child correctly for their comfort and safety. A loose fitting harness can be very dangerous.

5.The stroller has 2 shoulder height positions.

WARNING: Always adjust the shoulder harness length according to baby height.

FOLDING

1. Fold the canopy and apply the brake.
2. Pull both release triggers and push the handle toward the floor.

NOTE: The stroller cannot be folded in parent facing position.

CARE AND MAINTENANCE

Maintenance:

The product requires regular maintenance to ensure correct and safe performance.

Regularly inspect the wheels, locks, brakes, harness, catches, seatadjusters, joints and fixings to ensure they are clean, operating correctly and in full working order.

Replace tyres if they are excessively worn.

Do not use this product if any part is broken, torn or missing and use only spares provided by the manufacturer.

If parts become stiff or difficult to operate, ensure dirt is not the cause, then try a light application of a silicon lubricant, ensuring it penetrates between the components. Regular lubrication of moving parts will extend the life of your product and make opening and folding easier.

The stroller should be serviced and reconditioned before using for a second baby, or within 18 months, whichever is sooner.

After exposure to damp conditions, dry off with a soft cloth and leave fully open in a warm environment. Storing damp will encourage mildew to form. Store in a dry place.

Do not leave in sunlight for prolonged periods as some fabrics may fade.

Cleaning:

Spot or sponge clean fabrics with mild detergent. Use mild soap or upholstery shampoo. Wash separately. NEVER use bleach. Dry in shade thoroughly before reuse and avoid direct heat and sunlight. Do not iron. Do not dry clean.

Wipe clean plastics and metals with damp cloth. Never clean any part of the product with abrasive, ammonia based, bleach based or spirit type cleaners.

Ensure the product is fully dry before use or storage.

Always ensure the product is stored in a dry place to prevent mold or mildew developing.

1、 Important information

Notice for Child Size Range 40-87cm

- Notice!-This is an "i-Size" Enhanced Child Restraint System. It is approved according to UN Regulation No. 129, for use primarily in "Universal seating positions" as indicated by vehicle manufacturers in the vehicle user's manual.
- If in doubt, consult either the Enhanced Child Restraint System manufacturer or the retailer.
- The size range for which this device is intended is:

Orientation	Size range	Installation	Category
Rearward	40-87cm	ISOFIX	I-size Universal ISOFIX

Special note: This product will reduce the harm of traffic accidents to children, but cannot guarantee the absolute safety of children, so when you driving, please strictly abide the local traffic laws and regulations.

This product has been approved with regulation UN Regulation No.129/03.

2、 Warning

- 1) Please ensure that the Enhanced Child Restraint System is completely installed and fixed correctly, the rigid items and plastic parts of an Enhanced Child Restraint System shall be so located and installed that they are not liable, during everyday use of the vehicle, to become trapped by a movable seat or in a door of the vehicle.
- 2) Warning! -For rearward facing Enhanced Child Restraint Systems, not to use them in seating positions where there is an active frontal air bag installed.
- 3) Ensure that any straps holding the restraint to the vehicle should be tight, that any straps or impact shields restraining the child should be adjusted to the child's body, and that straps should not be twisted.
- 4) Ensure that any lap strap is worn low down, and that any impact shield installed properly, so that the pelvis is firmly engaged, shall be stressed.
- 5) The device should be replaced when it has been subject to violent stresses in an accident.
- 6) Warning!-It is dangerous to make any alterations or additions to the device without the approval of the Type Approval Authority, and It is dangerous of not following

closely the installation instructions provided by the child restraint manufacturer.

- 7) When the chair is not provided with a textile cover, the chair should be kept away from sunlight, otherwise it may be too hot for the child's skin.
- 8) Ensure that children are not left in their Enhanced Child Restraint System unattended.
- 9) Ensure that any luggage or other objects liable to cause injuries in the event of a collision shall be properly secured.
Please don't put heavy stuff in the car or the Enhanced Child Restraint System, it could cause injury in the accident.
- 10) Please take the child safety seat away from the corrosion.
- 11) The Enhanced Child Restraint System shall not be used without the cover.
- 12) The Enhanced Child Restraint System cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the restraint performance.
- 13) Please ensure that the adult safety- belt buckle relative to the main load bearing contact points on the restraint. The user shall be advised to contact the child restraint manufacturer if in doubt about this point.
- 14) Please not to use any load bearing contact points other than those described in the instructions and marked in the child restraint.
- 15) For an "i-Size Enhanced Child Restraint System", the user shall also be referred to the vehicle manufacturer,s handbook.
- 16) Always ensure that the child safety seat is securely fastened, even when unoccupied, a loose seat can cause injuries in the event of a collision.
- 17) It is most important that the instruction manual should be retained on the child restraint for its life period.
- 18) Please buy the product from the decent sales channel, the manufacturer don't guarantee the quality of second hand product.
- 19) The illustrations in this manual are for reference only, and may differ slightly from your seat model.

3、Installation instructions

ECRS orientation	Size range	Installation method	Category
Rearward facing	40-87cm	ISOFIX	I-size Universal ISOFIX

✓ Applicable ✗ Not Applicable

?₁ Can not be used in the passenger seat with the airbag activated.

?₂ Only suitable for seats with a 3 point safety belt.

4、Usage methods

4.1. To adjust the height of the harness straps to fit your child:

Slide the two harness straps off the harness connector, then pull it through any of the two strap holes up or down on the seat’s backrest. Re-thread the harness strap back onto the harness connector at the back of the seat.

Please make sure that the shoulder straps are at the correct height for your child. The child’s shoulders should always be below the slot for the harness, choose the closely slot, but higher than the shoulder

4.2 Buckle use:

To lock the crotch strap and shoulder straps: Put the two buckle tongues together and engage in the harness buckle with an audible “CLICK”.pig2.1

Pig2.1

To release child, just press the red button on the buckle, the buckle tongues will pop up.

4.3 The adjustment of harness straps:

Firstly, adjust the length of the belt to fit your child, then Put the two buckle tongues together and engage in the harness buckle with an audible “CLICK”. Press the adjustment button (See photo below) in the front of the seat and at the same time pull both shoulder straps forward to slacken the harness. To tighten the harness, you may just pulling forward the free end of the front belt. Fig.4.1, Fig4.2

Securing the baby with the harness

4.4 Use of ISOFIX

If your vehicle is not equipped with the ISOFIX insert guides as standard, clip the two insert guides 02 which are included with the seat with the cut-out facing upwards

onto the two ISOFIX, attachment points 01 of your vehicle.
Put the base of the basket close to the back of the car seat and insert the ISOFIX interface.

4.5 The role of the basket handle

If you adjust the basket handle, please refer to the position as shown below:

- Location A: Move/transport seats
- Position B: When storing and storing

Position C: Install seats in the vehicle

5、 Installation methods For i-Size (40-87cm)

5.1 Basket body +ISOFIX base plus

For i-size (40-87cm):

a. ISOFIX preparation (optional for vehicle seat with ISOFIX anchorage point)

If your car is not equipped with ISOFIX connector guilders, the two ISOFIX connector guilders offered by the us are now available to be plunged into the ISOFIX setting (as shown in the picture)

b.Remove the base with ISOFIX and press the ISOFIX button to make ISOFIX extend to the maximum position, as shown below:

c.Push the ISOfix base toward the back of the seat, and the rear edge of the base is close to the car seat. The ISOFIX interface button is green, indicating that the ISOFIX base is installed.

d.The basket clipped into the base and clicked. Use your hand basket to see if it is jammed or wobbly.

6、Maintenance for child car seat

6.1 To retain the protective effect :

- * Do not allow the restraint to come into contact with polishes, oils, bleach and other chemicals.
- * In an accident at a collision speed above 10km/h the child seat could suffer damage which is not necessarily obvious. In this case, the child seat must be inspected by the manufacturer and if necessary replaced.
- * Regularly check all important parts for damage. Ensure the correct operation of all mechanical components.
- * To prevent damage or breakage, ensure that the child seat does not become jammed in the car door, seat runners, etc.
- * Should the child seat be damaged (for example after dropping it), it must be inspected by the manufacturer or the retailer.

6.2 Cleaning :

Please be sure to use only original replacement seat covers, as the seat cover is important to the proper functioning of the system. Replacement seat covers are available from your retailer

- *The child seat must **NOT BE USED WITHOUT THE SEAT COVER**.
- *The cover can be removed and washed with a mild detergent using the washing machine's cycle for delicate items (30 °C).
- * Please observe the instructions on the washing label of the cover. The colours of the cover may fade if washed at more than 30 °C. Do not spin, and never tumble dry in an electric clothes dryer (the fabric may separate from the padding).
- * The plastic parts can be cleaned using soapy water. Do not use harsh cleaning agents (such as solvents).
- * The harness can be removed and washed in lukewarm soapy water. The pull strap can't be removed, but it also can be wash without removing.

7、Warranty

This child safety car seat has been produced according the relating safety regulation standard. We provide an 1-year warranty against manufacturing or spare parts defects The warranty period is effective from the day of purchase

<p>J.</p>  <p>Siège auto x1</p>		

1.Pull the handle bar up to unfold the chassis (A).

NOTE: The folding mechanism will “click” into place when the legs are fully extended.

2.Lean the chassis backwards and push each front wheel (E) assembly into the front wheel housing until the lock into place.

NOTE: Pull on the wheel assembly to ensure that it is securely attached to the chassis.

3a. Attach the rear wheel axle (G) to the chassis.

3b. Use the rear wheel fittings (H) for the next steps.

As illustrated, assemble a washer, followed by a rear wheel (F) and then another washer.

3c. Insert the cotter pin through end of the axle to secure. Finally attach the cover. Repeat steps for the other rear wheel.

Assembler le siège

Insérez le tube sous le siège dans la fente en plastique jusqu'à ce que la plaque à ressort sorte du trou.

4.Align the seat unit (B) with the anchors on the side of the chassis and push them together until they “click” securely.

Press the release button as illustrated to remove the seat unit.

5.Attach the bumper bar (C) by aligning the anchors with the slots on the seat unit. Push until the bumper bar “clicks” into place.

NOTE: The bumper bar must be securely attached before using this product. Press the release button to remove the bumper bar.

6. Insert the bow of the canopy (D) into the anchors on the seat unit until it "clicks" into place. Fasten the snap buttons and do the zip.

Backrest Adjustment

The seat can be adjusted into upright, half-reclined and reclined positions. Pull up the recline lever on the rear of the seat unit and adjust the seat into the desired position.

NOTE: The footrest will adjust as the backrest is adjusted.

Réglage de l'assiette du siège

Régalez le siège en position horizontale et détachez la boucle sous le siège et derrière le dossier lors de l'utilisation en position de chariot inclinée.

REMARQUE : Ce siège ne peut pas être utilisé comme lit de corry, ne pas être transporté à la main ou se déplacer seul.

Reversible Seat Unit

The seat unit is reversible. It can be forward or parent facing.

Installation du filet

Il suffit de mettre le filet selon l'image.

Swivel Wheels

The front wheels are equipped with a swivel locking device. Push the button on each wheel up to fix the locks and push down to disengage the locks.

Brakes

To engage brakes, apply downward pressure to the brake lever located on the rear axle. Check that the stroller does not move once the brakes are properly applied.

To release, gently lift up on the brake lever.

Harness

1. Slide the shoulder strap buckle onto the housing of the waist strap buckle. Repeat for the other side.

2. Insert the completed buckle into the buckle housing until it engages securely in place. Listen for the “click”. Repeat for the opposite side.

3. Press the centre button to release child from harness.

4. To adjust the harness, move the slides as shown.

WARNING: Always adjust the harness to fit your child correctly for their comfort and safety. A loose fitting harness can be very dangerous.

5. The stroller has 2 shoulder height positions.

WARNING: Always adjust the shoulder harness length according to baby height.

PLIANT

1. Fold the canopy and apply the brake.
2. Pull both release triggers and push the handle toward the floor.

NOTE: The stroller cannot be folded in parent facing position.

SOINS ET ENTRETIEN

Entretien:

Le produit nécessite un entretien régulier pour garantir un fonctionnement correct et sûr.
mance.

Inspectez régulièrement les roues, les verrous, les freins, le harnais, les loquets, les dispositifs de réglage des sièges, les joints et les fixations pour vous assurer qu'ils sont propres, fonctionnent correctement et en parfait état de fonctionnement.

Remplacez les pneus s'ils sont excessivement usés.

N'utilisez pas ce produit si une pièce est cassée, déchirée ou manquante et utilisez-le uniquement pièces de rechange fournies par le fabricant.

Si les pièces deviennent rigides ou difficiles à utiliser, assurez-vous que la saleté n'en est pas la cause, puis essayez d'appliquer légèrement un lubrifiant à base de silicone, en vous assurant qu'il pénètre entre les composants.

Une lubrification régulière des pièces mobiles prolongera la durée de vie de votre produit et facilitent l'ouverture et le pliage.

La poussette doit être entretenue et reconditionnée avant d'être utilisée pour un deuxième bébé, ou dans les 18 mois, selon la première éventualité.

Après exposition à des conditions humides, séchez avec un chiffon doux et laissez complètement ouvert dans un environnement chaud. Le stockage humide favorisera la formation de moisissures. Conserver dans un endroit sec.

Ne pas laisser au soleil pendant une période prolongée car certains tissus pourraient se décolorer.

Nettoyage:

Nettoyez les tissus avec une éponge ou un détergent doux. Utilisez un savon doux ou un shampoing pour tissus d'ameublement. Laver séparément. N'utilisez JAMAIS d'eau de Javel. Sécher soigneusement à l'ombre avant réutilisation et éviter la chaleur directe et la lumière du soleil. Ne pas repasser. Ne pas nettoyer à sec.

Essayez les plastiques et les métaux avec un chiffon humide. Ne nettoyez jamais aucune partie du produit avec des nettoyeurs abrasifs, à base d'ammoniaque, à base d'eau de Javel ou à base d'alcool.

Assurez-vous que le produit est complètement sec avant utilisation ou stockage.

Assurez-vous toujours que le produit est stocké dans un endroit sec pour éviter la moisissure.
développement.

1、 Important information

Notice for Child Size Range 40-87cm

- Notice!-This is an "i-Size" Enhanced Child Restraint System. It is approved according to UN Regulation No. 129, for use primarily in "Universal seating positions" as indicated by vehicle manufacturers in the vehicle user's manual.
- If in doubt, consult either the Enhanced Child Restraint System manufacturer or the retailer.
- The size range for which this device is intended is:

Orientation	Size range	Installation	Category
Rearward	40-87cm	ISOFIX	I-size Universal ISOFIX

Special note: This product will reduce the harm of traffic accidents to children, but cannot guarantee the absolute safety of children, so when you driving, please strictly abide the local traffic laws and regulations.

This product has been approved with regulation UN Regulation No.129/03.

2、 Warning

- 1) Please ensure that the Enhanced Child Restraint System is completely installed and fixed correctly, the rigid items and plastic parts of an Enhanced Child Restraint System shall be so located and installed that they are not liable, during everyday use of the vehicle, to become trapped by a movable seat or in a door of the vehicle.
- 2) Warning! -For rearward facing Enhanced Child Restraint Systems, not to use them in seating positions where there is an active frontal air bag installed.
- 3) Ensure that any straps holding the restraint to the vehicle should be tight, that any straps or impact shields restraining the child should be adjusted to the child's body, and that straps should not be twisted.
- 4) Ensure that any lap strap is worn low down, and that any impact shield installed properly, so that the pelvis is firmly engaged, shall be stressed.
- 5) The device should be replaced when it has been subject to violent stresses in an accident.
- 6) Warning!-It is dangerous to make any alterations or additions to the device without the approval of the Type Approval Authority, and It is dangerous of not following

closely the installation instructions provided by the child restraint manufacturer.

- 7) When the chair is not provided with a textile cover, the chair should be kept away from sunlight, otherwise it may be too hot for the child's skin.
- 8) Ensure that children are not left in their Enhanced Child Restraint System unattended.
- 9) Ensure that any luggage or other objects liable to cause injuries in the event of a collision shall be properly secured.
Please don't put heavy stuff in the car or the Enhanced Child Restraint System, it could cause injury in the accident.
- 10) Please take the child safety seat away from the corrosion.
- 11) The Enhanced Child Restraint System shall not be used without the cover.
- 12) The Enhanced Child Restraint System cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the restraint performance.
- 13) Please ensure that the adult safety- belt buckle relative to the main load bearing contact points on the restraint. The user shall be advised to contact the child restraint manufacturer if in doubt about this point.
- 14) Please not to use any load bearing contact points other than those described in the instructions and marked in the child restraint.
- 15) For an "i-Size Enhanced Child Restraint System", the user shall also be referred to the vehicle manufacturer's handbook.
- 16) Always ensure that the child safety seat is securely fastened, even when unoccupied, a loose seat can cause injuries in the event of a collision.
- 17) It is most important that the instruction manual should be retained on the child restraint for its life period.
- 18) Please buy the product from the decent sales channel, the manufacturer don't guarantee the quality of second hand product.
- 19) The illustrations in this manual are for reference only, and may differ slightly from your seat model.

3、Installation instructions

ECRS orientation	Size range	Installation method	Category
Rearward facing	40-87cm	ISOFIX	I-size Universal ISOFIX

4、Usage methods

4.1. To adjust the height of the harness straps to fit your child:

Slide the two harness straps off the harness connector, then pull it through any of the two strap holes up or down on the seat's backrest. Re-thread the harness strap back onto the harness connector at the back of the seat.

Please make sure that the shoulder straps are at the correct height for your child. The child's shoulders should always be below the slot for the harness, choose the closely slot, but higher than the shoulder

4.2 Buckle use:

To lock the crotch strap and shoulder straps: Put the two buckle tongues together and engage in the harness buckle with an audible "CLICK".

Pig2.1

To release child, just press the red button on the buckle, the buckle tongues will pop up.

4.3 The adjustment of harness straps:

Firstly, adjust the length of the belt to fit your child, then Put the two buckle tongues together and engage in the harness buckle with an audible "CLICK". Press the adjustment button (See photo below) in the front of the seat and at the same time pull both shoulder straps forward to slacken the harness. To tighten the harness, you may just pulling forward the free end of the front belt. Fig.4.1, Fig.4.2

Securing the baby with the harness

4.4 Use of ISOFIX

If your vehicle is not equipped with the ISOFIX insert guides as standard, clip the two insert guides 02 which are included with the seat with the cut-out facing upwards

onto the two ISOFIX, attachment points 01 of your vehicle.

Put the base of the basket close to the back of the car seat and insert the ISOFIX interface.

4.5 The role of the basket handle

If you adjust the basket handle, please refer to the position as shown below:

Location A: Move/transport seats

Position B: When storing and storing

Position C: Install seats in the vehicle

5、 Installation methods For i-Size (40-87cm)

5.1 Basket body +ISOFIX base plus

For i-size (40-87cm):

a. ISOFIX preparation (optional for vehicle seat with ISOFIX anchorage point)

If your car is not equipped with ISOFIX connector guilders, the two ISOFIX connector guilders offered by the us are now available to be plunged into the ISOFIX setting (as shown in the picture)

b.Remove the base with ISOFIX and press the ISOFIX button to make ISOFIX extend to the maximum position, as shown below:

c.Push the ISOfix base toward the back of the seat, and the rear edge of the base is close to the car seat. The ISOFIX interface button is green, indicating that the ISOFIX base is installed.

d.The basket clipped into the base and clicked. Use your hand basket to see if it is jammed or wobbly.

6、Maintenance for child car seat

6.1 To retain the protective effect :

- * Do not allow the restraint to come into contact with polishes, oils, bleach and other chemicals.
- * In an accident at a collision speed above 10km/h the child seat could suffer damage which is not necessarily obvious. In this case, the child seat must be inspected by the manufacturer and if necessary replaced.
- * Regularly check all important parts for damage. Ensure the correct operation of all mechanical components.
- * To prevent damage or breakage, ensure that the child seat does not become jammed in the car door, seat runners, etc.
- * Should the child seat be damaged (for example after dropping it), it must be inspected by the manufacturer or the retailer.

6.2 Cleaning :

Please be sure to use only original replacement seat covers, as the seat cover is important to the proper functioning of the system. Replacement seat covers are available from your retailer

- *The child seat must **NOT BE USED WITHOUT THE SEAT COVER**.
- *The cover can be removed and washed with a mild detergent using the washing machine's cycle for delicate items (30 °C).
- * Please observe the instructions on the washing label of the cover. The colours of the cover may fade if washed at more than 30 °C. Do not spin, and never tumble dry in an electric clothes dryer (the fabric may separate from the padding).
- * The plastic parts can be cleaned using soapy water. Do not use harsh cleaning agents (such as solvents).
- * The harness can be removed and washed in lukewarm soapy water. The pull strap can't be removed, but it also can be wash without removing.

TEMPERATURE

DO NOT RINSE

Dies ist die Originalanleitung. Bitte lesen Sie alle Anweisungen sorgfältig durch, bevor Sie das Gerät in Betrieb nehmen. VEVOR behält sich eine klare Auslegung unserer Bedienungsanleitung vor. Das Erscheinungsbild des Produkts richtet sich nach dem Produkt, das Sie erhalten haben. Bitte verzeihen Sie uns, dass wir Sie nicht erneut informieren, wenn es Technologie- oder Software-Updates für unser Produkt gibt.

IMPORTANT – READ CAREFULLY AND KEEP FOR FUTURE REFERENCE

Thank you for choosing our product. Please always read all the instructions provided carefully before use and remember the child's safety may be affected if you do not follow these instructions. The pushchair is suitable from birth up to 15kg (approx. 36 months), never overload.

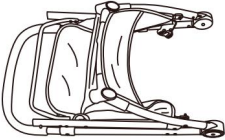

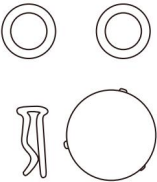

Dieses Produkt entspricht EN1888-1:2018+A1:2022.

WARNINGS:

- Never leave the child unattended.
- Ensure that all the locking devices are engaged before use.
- To avoid injury ensure that the child is kept away when unfolding and folding this product.
- Do not let the child play with this product.
- Always use the restraint system provided and make sure the harness is correctly fitted.
- Always use the crotch strap in combination with the waist belt.
- This product is not suitable for running or skating.
- Diese Sitzeinheit kann nicht als Babybett verwendet werden und darf nicht mit der Hand transportiert oder alleine bewegt werden.
- Für ein Neugeborenes sollte sich die Sitzeinheit in der am weitesten zurückgelehnten Position befinden. Bitte bringen Sie den Sitz in eine horizontale Position und öffnen Sie die Schnalle unter dem Sitz und hinter der Rückenlehne, wenn Sie ihn in der zurückgelehnten Wagenposition verwenden.
- The parking device shall be engaged when placing and removing the children.
- The maximum permissible loading for the shopping basket is 2kg.
- Any load attached to the handle and/or on the back and/or on the side will affect the stability of the vehicle.
- Use the stroller for only one child at a time.

- Accessories which are not approved by the manufacturer shall not be used.
- Only replacement parts supplied or recommended by the manufacturer/distributor shall be used.
- Do not use if any part is broken, torn or missing.
- Avoid placing the pushchair near naked heat sources such as electric bar fires, etc. or where a child could gain access to any other kinds of hazards.
- Check that the pram body or seat unit or car seat attachment devices are correctly engaged before use.
- For car seats used in conjunction with a chassis, this vehicle does not replace a cot or a bed, Should your child need to sleep, then it should be placed in a suitable pram body, cot or bed.

Liste der Einzelteile

<p>A</p>  <p>Fahrgestell x1</p>	<p>B</p>  <p>Sitzeinheit x1</p>	<p>C</p>  <p>Stoßstange x1</p>
<p>D</p>  <p>Fußschutz x1</p>	<p>UND</p>  <p>Vorderräder x2</p>	<p>F</p>  <p>Hinterräder x2</p>
<p>G</p>  <p>Hinterradachse x1</p>	<p>H</p>  <p>Rear wheel fittings x2</p>	<p>-</p>  <p>Netto x1</p>
<p>J</p>  <p>Autositz x1</p>		

1. Pull the handle bar up to unfold the chassis (A).

NOTE: The folding mechanism will “click” into place when the legs are fully extended.

2. Lean the chassis backwards and push each front wheel (E) assembly into the front wheel housing until the lock into place.

NOTE: Pull on the wheel assembly to ensure that it is securely attached to the chassis.

3a. Attach the rear wheel axle (G) to the chassis.

3b. Use the rear wheel fittings (H) for the next steps.

As illustrated, assemble a washer, followed by a rear wheel (F) and then another washer.

3c. Insert the cotter pin through end of the axle to secure. Finally attach the cover. Repeat steps for the other rear wheel.

Zusammenbau des Sitzes

Führen Sie das Rohr unter dem Sitz in den Kunststoffschlitz ein, bis die Federplatte aus dem Loch springt.

4.Align the seat unit (B) with the anchors on the side of the chassis and push them together until they “click” securely.

Press the release button as illustrated to remove the seat unit.

5.Attach the bumper bar (C) by aligning the anchors with the slots on the seat unit. Push until the bumper bar “clicks” into place.

NOTE: The bumper bar must be securely attached before using this product. Press the release button to remove the bumper bar.

6. Insert the bow of the canopy (D) into the anchors on the seat unit until it "clicks" into place. Fasten the snap buttons and do the zip.

Backrest Adjustment

The seat can be adjusted into upright, half-reclined and reclined positions. Pull up the recline lever on the rear of the seat unit and adjust the seat into the desired position.

NOTE: The footrest will adjust as the backrest is adjusted.

Einstellung der Sitzposition

Bringen Sie den Sitz in eine waagerechte Position und lösen Sie bei Verwendung in liegender Kinderwagenposition den Gurt unter dem Sitz und hinter der Rückenlehne.

HINWEIS: Diese Sitzeinheit kann nicht als Babybett verwendet werden und darf nicht mit der Hand transportiert oder alleine bewegt werden.

Reversible Seat Unit

The seat unit is reversible. It can be forward or parent facing.

Netzmontage

Einfach das Netz entsprechend der Abbildung auflegen.

Swivel Wheels

The front wheels are equipped with a swivel locking device. Push the button on each wheel up to fix the locks and push down to disengage the locks.

Brakes

To engage brakes, apply downward pressure to the brake lever located on the rear axle. Check that the stroller does not move once the brakes are properly applied.

To release, gently lift up on the brake lever.

Harness

1. Slide the shoulder strap buckle onto the housing of the waist strap buckle. Repeat for the other side.

2. Insert the completed buckle into the buckle housing until it engages securely in place. Listen for the “click”. Repeat for the opposite side.

3. Press the centre button to release child from harness.

4. To adjust the harness, move the slides as shown.

WARNING: Always adjust the harness to fit your child correctly for their comfort and safety. A loose fitting harness can be very dangerous.

5. The stroller has 2 shoulder height positions.

WARNING: Always adjust the shoulder harness length according to baby height.

FALTBAR

1. Fold the canopy and apply the brake.
2. Pull both release triggers and push the handle toward the floor.

NOTE: The stroller cannot be folded in parent facing position.

PFLEGE UND WARTUNG

Wartung:

Um einen ordnungsgemäßen und sicheren Betrieb des Produkts zu gewährleisten, ist eine regelmäßige Wartung erforderlich. leistung.

Überprüfen Sie regelmäßig Räder, Schlösser, Bremsen, Gurte, Verriegelungen, Sitzverstellungen, Gelenke und Befestigungen, um sicherzustellen, dass sie sauber sind, ordnungsgemäß funktionieren und voll funktionsfähig sind.

Ersetzen Sie die Reifen, wenn sie übermäßig abgenutzt sind.

Benutzen Sie das Produkt nicht, wenn ein Teil gebrochen, zerrissen oder fehlt, und verwenden Sie nur Ersatzteile, die vom Hersteller bereitgestellt werden.

Wenn Teile schwergängig werden oder sich nur schwer bedienen lassen, stellen Sie sicher, dass nicht Schmutz die Ursache ist. Tragen Sie dann ein leichtes Silikonschmiermittel auf und achten Sie darauf, dass es zwischen die Komponenten eindringt. Regelmäßiges Schmieren beweglicher Teile verlängert die Lebensdauer Ihres Produkt und erleichtern das Öffnen und Falten.

Der Kinderwagen sollte vor der Verwendung für ein zweites Baby oder innerhalb von 18 Monaten (je nachdem, was früher eintritt) gewartet und überholt werden.

Nach Kontakt mit Feuchtigkeit mit einem weichen Tuch abtrocknen und in einer warmen Umgebung vollständig geöffnet lassen. Feuchtigkeit fördert die Schimmelbildung. Lagern Sie das Produkt in einem trockener Platz.

Nicht über längere Zeit im Sonnenlicht liegen lassen, da einige Stoffe ausbleichen können.

Reinigung:

Reinigen Sie Stoffe mit einem milden Reinigungsmittel punktuell oder mit einem Schwamm. Verwenden Sie milde Seife oder Polstershampoo. Separat waschen. Verwenden Sie NIEMALS Bleichmittel. Im Schatten gründlich trocknen. vor erneutem Tragen und direkte Hitze und Sonneneinstrahlung vermeiden. Nicht bügeln. Nicht chemisch reinigen. Wischen Sie Kunststoffe und Metalle mit einem feuchten Tuch ab. Reinigen Sie Teile des Produkts niemals mit Scheuermitteln oder Reinigungsmitteln auf Ammoniak-, Bleich- oder Spiritusbasis.

Stellen Sie sicher, dass das Produkt vor der Verwendung oder Lagerung vollständig trocken ist.

Stellen Sie immer sicher, dass das Produkt an einem trockenen Ort gelagert wird, um Schimmelbildung vorzubeugen.

Entwicklung.

1、 Important information

Notice for Child Size Range 40-87cm

- Notice!-This is an "i-Size" Enhanced Child Restraint System. It is approved according to UN Regulation No. 129, for use primarily in "Universal seating positions" as indicated by vehicle manufacturers in the vehicle user's manual.
- If in doubt, consult either the Enhanced Child Restraint System manufacturer or the retailer.
- The size range for which this device is intended is:

Orientation	Size range	Installation	Category
Rearward	40-87cm	ISOFIX	I-size Universal ISOFIX

Special note: This product will reduce the harm of traffic accidents to children, but cannot guarantee the absolute safety of children, so when you driving, please strictly abide the local traffic laws and regulations.

This product has been approved with regulation UN Regulation No.129/03.

2、 Warning

- 1) Please ensure that the Enhanced Child Restraint System is completely installed and fixed correctly, the rigid items and plastic parts of an Enhanced Child Restraint System shall be so located and installed that they are not liable, during everyday use of the vehicle, to become trapped by a movable seat or in a door of the vehicle.
- 2) Warning! -For rearward facing Enhanced Child Restraint Systems, not to use them in seating positions where there is an active frontal air bag installed.
- 3) Ensure that any straps holding the restraint to the vehicle should be tight, that any straps or impact shields restraining the child should be adjusted to the child's body, and that straps should not be twisted.
- 4) Ensure that any lap strap is worn low down, and that any impact shield installed properly, so that the pelvis is firmly engaged, shall be stressed.
- 5) The device should be replaced when it has been subject to violent stresses in an accident.
- 6) Warning!-It is dangerous to make any alterations or additions to the device without the approval of the Type Approval Authority, and It is dangerous of not following

closely the installation instructions provided by the child restraint manufacturer.

- 7) When the chair is not provided with a textile cover, the chair should be kept away from sunlight, otherwise it may be too hot for the child's skin.
- 8) Ensure that children are not left in their Enhanced Child Restraint System unattended.
- 9) Ensure that any luggage or other objects liable to cause injuries in the event of a collision shall be properly secured.
Please don't put heavy stuff in the car or the Enhanced Child Restraint System, it could cause injury in the accident.
- 10) Please take the child safety seat away from the corrosion.
- 11) The Enhanced Child Restraint System shall not be used without the cover.
- 12) The Enhanced Child Restraint System cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the restraint performance.
- 13) Please ensure that the adult safety- belt buckle relative to the main load bearing contact points on the restraint. The user shall be advised to contact the child restraint manufacturer if in doubt about this point.
- 14) Please not to use any load bearing contact points other than those described in the instructions and marked in the child restraint.
- 15) For an "i-Size Enhanced Child Restraint System", the user shall also be referred to the vehicle manufacturer's handbook.
- 16) Always ensure that the child safety seat is securely fastened, even when unoccupied, a loose seat can cause injuries in the event of a collision.
- 17) It is most important that the instruction manual should be retained on the child restraint for its life period.
- 18) Please buy the product from the decent sales channel, the manufacturer don't guarantee the quality of second hand product.
- 19) The illustrations in this manual are for reference only, and may differ slightly from your seat model.

3、Installation instructions

ECRS orientation	Size range	Installation method	Category
Rearward facing	40-87cm	ISOFIX	I-size Universal ISOFIX

4、Usage methods

4.1. To adjust the height of the harness straps to fit your child:

Slide the two harness straps off the harness connector, then pull it through any of the two strap holes up or down on the seat's backrest. Re-thread the harness strap back onto the harness connector at the back of the seat.

Please make sure that the shoulder straps are at the correct height for your child. The child's shoulders should always be below the slot for the harness, choose the closely slot, but higher than the shoulder

4.2 Buckle use:

To lock the crotch strap and shoulder straps: Put the two buckle tongues together and engage in the harness buckle with an audible "CLICK".

Pig2.1

To release child, just press the red button on the buckle, the buckle tongues will pop up.

4.3 The adjustment of harness straps:

Firstly, adjust the length of the belt to fit your child, then Put the two buckle tongues together and engage in the harness buckle with an audible "CLICK". Press the adjustment button (See photo below) in the front of the seat and at the same time pull both shoulder straps forward to slacken the harness. To tighten the harness, you may just pulling forward the free end of the front belt. Fig.4.1, Fig.4.2

Securing the baby with the harness

4.4 Use of ISOFIX

If your vehicle is not equipped with the ISOFIX insert guides as standard, clip the two insert guides 02 which are included with the seat with the cut-out facing upwards

onto the two ISOFIX, attachment points 01 of your vehicle.

Put the base of the basket close to the back of the car seat and insert the ISOFIX interface.

4.5 The role of the basket handle

If you adjust the basket handle, please refer to the position as shown below:

Location A: Move/transport seats

Position B: When storing and storing

Position C: Install seats in the vehicle

5、 Installation methods For i-Size (40-87cm)

5.1 Basket body +ISOFIX base plus

For i-size (40-87cm):

a. ISOFIX preparation (optional for vehicle seat with ISOFIX anchorage point)

If your car is not equipped with ISOFIX connector guilders, the two ISOFIX connector guilders offered by the us are now available to be plunged into the ISOFIX setting (as shown in the picture)

b.Remove the base with ISOFIX and press the ISOFIX button to make ISOFIX extend to the maximum position, as shown below:

c.Push the ISOfix base toward the back of the seat, and the rear edge of the base is close to the car seat. The ISOFIX interface button is green, indicating that the ISOFIX base is installed.

d.The basket clipped into the base and clicked. Use your hand basket to see if it is jammed or wobbly.

6、Maintenance for child car seat

6.1 To retain the protective effect :

- * Do not allow the restraint to come into contact with polishes, oils, bleach and other chemicals.
- * In an accident at a collision speed above 10km/h the child seat could suffer damage which is not necessarily obvious. In this case, the child seat must be inspected by the manufacturer and if necessary replaced.
- * Regularly check all important parts for damage. Ensure the correct operation of all mechanical components.
- * To prevent damage or breakage, ensure that the child seat does not become jammed in the car door, seat runners, etc.
- * Should the child seat be damaged (for example after dropping it), it must be inspected by the manufacturer or the retailer.

6.2 Cleaning :

Please be sure to use only original replacement seat covers, as the seat cover is important to the proper functioning of the system. Replacement seat covers are available from your retailer

- *The child seat must **NOT BE USED WITHOUT THE SEAT COVER**.
- *The cover can be removed and washed with a mild detergent using the washing machine's cycle for delicate items (30 °C).
- * Please observe the instructions on the washing label of the cover. The colours of the cover may fade if washed at more than 30 °C. Do not spin, and never tumble dry in an electric clothes dryer (the fabric may separate from the padding).
- * The plastic parts can be cleaned using soapy water. Do not use harsh cleaning agents (such as solvents).
- * The harness can be removed and washed in lukewarm soapy water. The pull strap can't be removed, but it also can be wash without removing.

TEMPERATURE

DO NOT RINSE

NOT VERY HOT

NO DEHYDRATION

<p>J</p>  <p>Seggiolino auto x1</p>		

1. Pull the handle bar up to unfold the chassis (A).

NOTE: The folding mechanism will “click” into place when the legs are fully extended.

2. Lean the chassis backwards and push each front wheel (E) assembly into the front wheel housing until the lock into place.

NOTE: Pull on the wheel assembly to ensure that it is securely attached to the chassis.

3a. Attach the rear wheel axle (G) to the chassis.

3b. Use the rear wheel fittings (H) for the next steps.

As illustrated, assemble a washer, followed by a rear wheel (F) and then another washer.

3c. Insert the cotter pin through end of the axle to secure. Finally attach the cover. Repeat steps for the other rear wheel.

Assemblaggio del sedile

Inserire il tubo sotto il sedile nella fessura di plastica finché la piastra a molla non fuoriesce dal foro.

4.Align the seat unit (B) with the anchors on the side of the chassis and push them together until they “click” securely.

Press the release button as illustrated to remove the seat unit.

5.Attach the bumper bar (C) by aligning the anchors with the slots on the seat unit. Push until the bumper bar “clicks” into place.

NOTE: The bumper bar must be securely attached before using this product. Press the release button to remove the bumper bar.

6. Insert the bow of the canopy (D) into the anchors on the seat unit until it "clicks" into place. Fasten the snap buttons and do the zip.

Backrest Adjustment

The seat can be adjusted into upright, half-reclined and reclined positions. Pull up the recline lever on the rear of the seat unit and adjust the seat into the desired position.

NOTE: The footrest will adjust as the backrest is adjusted.

Regolazione dell'assetto del sedile

Regolare il sedile in posizione orizzontale e slacciare la fibbia sotto il sedile e dietro lo schienale quando si utilizza in posizione di trasporto reclinata.

NOTA: questa seduta non può essere utilizzata come culla, non trasportarla a mano né spostarla da soli.

Reversible Seat Unit

The seat unit is reversible. It can be forward or parent facing.

Installazione della
rete Basta inserire la rete secondo l'immagine.

Swivel Wheels

The front wheels are equipped with a swivel locking device. Push the button on each wheel up to fix the locks and push down to disengage the locks.

Brakes

To engage brakes, apply downward pressure to the brake lever located on the rear axle. Check that the stroller does not move once the brakes are properly applied.

To release, gently lift up on the brake lever.

Harness

1. Slide the shoulder strap buckle onto the housing of the waist strap buckle. Repeat for the other side.

2. Insert the completed buckle into the buckle housing until it engages securely in place. Listen for the “click”. Repeat for the opposite side.

3. Press the centre button to release child from harness.

4. To adjust the harness, move the slides as shown.

WARNING: Always adjust the harness to fit your child correctly for their comfort and safety. A loose fitting harness can be very dangerous.

5. The stroller has 2 shoulder height positions.

WARNING: Always adjust the shoulder harness length according to baby height.

PIEGHEVOLE

1. Fold the canopy and apply the brake.
2. Pull both release triggers and push the handle toward the floor.

NOTE: The stroller cannot be folded in parent facing position.

CURA E MANUTENZIONE

Manutenzione:

Il prodotto richiede una manutenzione regolare per garantire prestazioni corrette e sicure.

mance.

Ispezionare regolarmente ruote, bloccaggi, freni, imbracatura, fermi, regolatori del sedile, giunti e fissaggi per garantire che siano puliti, funzionino correttamente e siano perfettamente funzionanti.

Sostituire i pneumatici se sono eccessivamente usurati.

Non utilizzare questo prodotto se qualche parte è rotta, strappata o mancante e utilizzarla esclusivamente ricambi forniti dal produttore.

Se le parti diventano rigide o difficili da usare, accertarsi che la causa non sia lo sporco, quindi provare ad applicare una leggera applicazione di lubrificante al silicone, assicurandosi che penetri tra i componenti. La

lubrificazione regolare delle parti mobili ne prolungherà la durata

prodotto e facilitarne l'apertura e la piegatura.

Il passeggino deve essere sottoposto a manutenzione e ricondizionato prima di essere utilizzato per un secondo bambino o entro 18 mesi, a seconda di quale evento si verifica prima.

Dopo l'esposizione all'umidità, asciugare con un panno morbido e lasciare completamente aperto in un ambiente caldo. Conservare l'umidità incoraggerà la formazione di muffa. Conservare in a

posto asciutto.

Non lasciare alla luce del sole per periodi prolungati poiché alcuni tessuti potrebbero scolorire.

Pulizia:

Tessuti puliti con una spugna o con una spugna con un detergente delicato. Usa un sapone delicato o uno shampoo per tappezzeria. Lavare separatamente. Non usare MAI candeggina. Asciugare accuratamente all'ombra prima del riutilizzo ed evitare il calore diretto e la luce solare. Non stirare. Non lavare a secco.

Pulisci la plastica e i metalli con un panno umido. Non pulire mai nessuna parte del prodotto con detergenti abrasivi, a base di ammoniaca, candeggina o alcolici.

Assicurarsi che il prodotto sia completamente asciutto prima dell'uso o dello stoccaggio.

Assicurarsi sempre che il prodotto sia conservato in un luogo asciutto per evitare muffe o funghi sviluppando.

1、 Important information

Notice for Child Size Range 40-87cm

- Notice!-This is an "i-Size" Enhanced Child Restraint System. It is approved according to UN Regulation No. 129, for use primarily in "Universal seating positions" as indicated by vehicle manufacturers in the vehicle user's manual.
- If in doubt, consult either the Enhanced Child Restraint System manufacturer or the retailer.
- The size range for which this device is intended is:

Orientation	Size range	Installation	Category
Rearward	40-87cm	ISOFIX	I-size Universal ISOFIX

Special note: This product will reduce the harm of traffic accidents to children, but cannot guarantee the absolute safety of children, so when you driving, please strictly abide the local traffic laws and regulations.

This product has been approved with regulation UN Regulation No.129/03.

2、 Warning

- 1) Please ensure that the Enhanced Child Restraint System is completely installed and fixed correctly, the rigid items and plastic parts of an Enhanced Child Restraint System shall be so located and installed that they are not liable, during everyday use of the vehicle, to become trapped by a movable seat or in a door of the vehicle.
- 2) Warning! -For rearward facing Enhanced Child Restraint Systems, not to use them in seating positions where there is an active frontal air bag installed.
- 3) Ensure that any straps holding the restraint to the vehicle should be tight, that any straps or impact shields restraining the child should be adjusted to the child's body, and that straps should not be twisted.
- 4) Ensure that any lap strap is worn low down, and that any impact shield installed properly, so that the pelvis is firmly engaged, shall be stressed.
- 5) The device should be replaced when it has been subject to violent stresses in an accident.
- 6) Warning!-It is dangerous to make any alterations or additions to the device without the approval of the Type Approval Authority, and It is dangerous of not following

closely the installation instructions provided by the child restraint manufacturer.

- 7) When the chair is not provided with a textile cover, the chair should be kept away from sunlight, otherwise it may be too hot for the child's skin.
- 8) Ensure that children are not left in their Enhanced Child Restraint System unattended.
- 9) Ensure that any luggage or other objects liable to cause injuries in the event of a collision shall be properly secured.
Please don't put heavy stuff in the car or the Enhanced Child Restraint System, it could cause injury in the accident.
- 10) Please take the child safety seat away from the corrosion.
- 11) The Enhanced Child Restraint System shall not be used without the cover.
- 12) The Enhanced Child Restraint System cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the restraint performance.
- 13) Please ensure that the adult safety- belt buckle relative to the main load bearing contact points on the restraint. The user shall be advised to contact the child restraint manufacturer if in doubt about this point.
- 14) Please not to use any load bearing contact points other than those described in the instructions and marked in the child restraint.
- 15) For an "i-Size Enhanced Child Restraint System", the user shall also be referred to the vehicle manufacturer's handbook.
- 16) Always ensure that the child safety seat is securely fastened, even when unoccupied, a loose seat can cause injuries in the event of a collision.
- 17) It is most important that the instruction manual should be retained on the child restraint for its life period.
- 18) Please buy the product from the decent sales channel, the manufacturer don't guarantee the quality of second hand product.
- 19) The illustrations in this manual are for reference only, and may differ slightly from your seat model.

3、Installation instructions

ECRS orientation	Size range	Installation method	Category
Rearward facing	40-87cm	ISOFIX	I-size Universal ISOFIX

4、Usage methods

4.1. To adjust the height of the harness straps to fit your child:

Slide the two harness straps off the harness connector, then pull it through any of the two strap holes up or down on the seat's backrest. Re-thread the harness strap back onto the harness connector at the back of the seat.

Please make sure that the shoulder straps are at the correct height for your child. The child's shoulders should always be below the slot for the harness, choose the closely slot, but higher than the shoulder

4.2 Buckle use:

To lock the crotch strap and shoulder straps: Put the two buckle tongues together and engage in the harness buckle with an audible "CLICK".

Pig2.1

To release child, just press the red button on the buckle, the buckle tongues will pop up.

4.3 The adjustment of harness straps:

Firstly, adjust the length of the belt to fit your child, then Put the two buckle tongues together and engage in the harness buckle with an audible "CLICK". Press the adjustment button (See photo below) in the front of the seat and at the same time pull both shoulder straps forward to slacken the harness. To tighten the harness, you may just pulling forward the free end of the front belt. Fig.4.1, Fig.4.2

Securing the baby with the harness

4.4 Use of ISOFIX

If your vehicle is not equipped with the ISOFIX insert guides as standard, clip the two insert guides 02 which are included with the seat with the cut-out facing upwards

onto the two ISOFIX, attachment points 01 of your vehicle.

Put the base of the basket close to the back of the car seat and insert the ISOFIX interface.

4.5 The role of the basket handle

If you adjust the basket handle, please refer to the position as shown below:

Location A: Move/transport seats

Position B: When storing and storing

Position C: Install seats in the vehicle

5、 Installation methods For i-Size (40-87cm)

5.1 Basket body +ISOFIX base plus

For i-size (40-87cm):

a. ISOFIX preparation (optional for vehicle seat with ISOFIX anchorage point)

If your car is not equipped with ISOFIX connector guilders, the two ISOFIX connector guilders offered by the us are now available to be plunged into the ISOFIX setting (as shown in the picture)

b.Remove the base with ISOFIX and press the ISOFIX button to make ISOFIX extend to the maximum position, as shown below:

c.Push the ISOfix base toward the back of the seat, and the rear edge of the base is close to the car seat. The ISOFIX interface button is green, indicating that the ISOFIX base is installed.

d.The basket clipped into the base and clicked. Use your hand basket to see if it is jammed or wobbly.

6、Maintenance for child car seat

6.1 To retain the protective effect :

- * Do not allow the restraint to come into contact with polishes, oils, bleach and other chemicals.
- * In an accident at a collision speed above 10km/h the child seat could suffer damage which is not necessarily obvious. In this case, the child seat must be inspected by the manufacturer and if necessary replaced.
- * Regularly check all important parts for damage. Ensure the correct operation of all mechanical components.
- * To prevent damage or breakage, ensure that the child seat does not become jammed in the car door, seat runners, etc.
- * Should the child seat be damaged (for example after dropping it), it must be inspected by the manufacturer or the retailer.

6.2 Cleaning :

Please be sure to use only original replacement seat covers, as the seat cover is important to the proper functioning of the system. Replacement seat covers are available from your retailer

- *The child seat must **NOT BE USED WITHOUT THE SEAT COVER**.
- *The cover can be removed and washed with a mild detergent using the washing machine's cycle for delicate items (30 °C).
- * Please observe the instructions on the washing label of the cover. The colours of the cover may fade if washed at more than 30 °C. Do not spin, and never tumble dry in an electric clothes dryer (the fabric may separate from the padding).
- * The plastic parts can be cleaned using soapy water. Do not use harsh cleaning agents (such as solvents).
- * The harness can be removed and washed in lukewarm soapy water. The pull strap can't be removed, but it also can be wash without removing.

<div>j</div> <div></div> <div>Asiento de coche x1</div>		

1. Pull the handle bar up to unfold the chassis (A).

NOTE: The folding mechanism will “click” into place when the legs are fully extended.

2. Lean the chassis backwards and push each front wheel (E) assembly into the front wheel housing until the lock into place.

NOTE: Pull on the wheel assembly to ensure that it is securely attached to the chassis.

3a. Attach the rear wheel axle (G) to the chassis.

3b. Use the rear wheel fittings (H) for the next steps.

As illustrated, assemble a washer, followed by a rear wheel (F) and then another washer.

3c. Insert the cotter pin through end of the axle to secure. Finally attach the cover. Repeat steps for the other rear wheel.

Montaje del asiento

Inserte el tubo debajo del asiento en la ranura de plástico hasta que la placa del resorte salga del orificio.

4.Align the seat unit (B) with the anchors on the side of the chassis and push them together until they “click” securely.

Press the release button as illustrated to remove the seat unit.

5.Attach the bumper bar (C) by aligning the anchors with the slots on the seat unit. Push until the bumper bar “clicks” into place.

NOTE: The bumper bar must be securely attached before using this product. Press the release button to remove the bumper bar.

6. Insert the bow of the canopy (D) into the anchors on the seat unit until it "clicks" into place. Fasten the snap buttons and do the zip.

Backrest Adjustment

The seat can be adjusted into upright, half-reclined and reclined positions. Pull up the recline lever on the rear of the seat unit and adjust the seat into the desired position.

NOTE: The footrest will adjust as the backrest is adjusted.

Ajuste de la actitud del asiento

Ajuste el asiento a una posición horizontal y desabroche la hebilla debajo del asiento y detrás del respaldo cuando lo use en posición de carro reclinado.

NOTA: Esta unidad de asiento no se puede utilizar como catre, no la transporte con las manos ni la mueva sola.

Reversible Seat Unit

The seat unit is reversible. It can be forward or parent facing.

Instalación de la
red Simplemente coloque la red según la imagen.

Swivel Wheels

The front wheels are equipped with a swivel locking device. Push the button on each wheel up to fix the locks and push down to disengage the locks.

Brakes

To engage brakes, apply downward pressure to the brake lever located on the rear axle. Check that the stroller does not move once the brakes are properly applied.

To release, gently lift up on the brake lever.

Harness

1. Slide the shoulder strap buckle onto the housing of the waist strap buckle. Repeat for the other side.

2. Insert the completed buckle into the buckle housing until it engages securely in place. Listen for the “click”. Repeat for the opposite side.

3. Press the centre button to release child from harness.

4. To adjust the harness, move the slides as shown.

WARNING: Always adjust the harness to fit your child correctly for their comfort and safety. A loose fitting harness can be very dangerous.

5. The stroller has 2 shoulder height positions.

WARNING: Always adjust the shoulder harness length according to baby height.

PLEGABLE

1. Fold the canopy and apply the brake.
2. Pull both release triggers and push the handle toward the floor.

NOTE: The stroller cannot be folded in parent facing position.

CUIDADO Y MANTENIMIENTO

Mantenimiento:

El producto requiere un mantenimiento regular para garantizar un funcionamiento correcto y seguro. mance.

Inspeccione periódicamente las ruedas, bloqueos, frenos, arneses, pestillos, ajustadores de asientos, juntas y fijaciones para garantizar que estén limpios, funcionando correctamente y en pleno funcionamiento.

Reemplace los neumáticos si están excesivamente desgastados.

No utilice este producto si alguna pieza está rota, rota o falta y utilícela únicamente repuestos proporcionados por el fabricante.

Si las piezas se vuelven rígidas o difíciles de operar, asegúrese de que la causa no sea la suciedad, luego intente aplicar una ligera aplicación de un lubricante de silicona, asegurándose de que penetre entre los componentes. La lubricación regular de las piezas móviles prolongará la vida útil de su producto y facilitar su apertura y plegado.

El cochecito debe recibir servicio y reacondicionamiento antes de usarlo con un segundo bebé, o dentro de los 18 meses, lo que ocurra primero.

Después de la exposición a condiciones húmedas, séquelo con un paño suave y déjelo completamente abierto en un ambiente cálido. Almacenar humedad favorecerá la formación de moho. Almacenar en un lugar seco.

No lo deje expuesto al sol por períodos prolongados ya que algunas telas pueden desteñirse.

Limpieza:

Limpie las telas con una esponja o con un detergente suave. Utilice un jabón suave o un champú para tapicería. Lavar por separado. NUNCA use lejía. Secar completamente a la sombra.

antes de su reutilización y evite el calor directo y la luz solar. No planchar. No lavar en seco.

Limpie los plásticos y metales con un paño húmedo. Nunca limpie ninguna parte del producto con limpiadores abrasivos, a base de amoníaco, lejía o alcohol.

Asegúrese de que el producto esté completamente seco antes de usarlo o almacenarlo.

Asegúrese siempre de que el producto esté almacenado en un lugar seco para evitar la aparición de moho o hongos. desarrollando.

To jest oryginalna instrukcja. Przed przystąpieniem do obsługi prosimy o dokładne zapoznanie się ze wszystkimi instrukcjami. VEVOR zastrzega sobie jasną interpretację naszej instrukcji obsługi. Wygląd produktu zależy od produktu, który otrzymałeś. Proszę wybaczyć nam, że nie będziemy ponownie informować Państwa, jeśli pojawią się jakieś aktualizacje technologii lub oprogramowania naszego produktu.

IMPORTANT – READ CAREFULLY AND KEEP FOR FUTURE REFERENCE

Thank you for choosing our product. Please always read all the instructions provided carefully before use and remember the child's safety may be affected if you do not follow these instructions. The pushchair is suitable from birth up to 15kg (approx. 36 months), never overload.

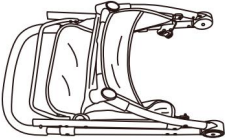

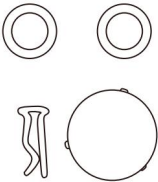

Ten produkt jest zgodny z normą EN1888-1:2018+A1:2022.

WARNINGS:

- Never leave the child unattended.
- Ensure that all the locking devices are engaged before use.
- To avoid injury ensure that the child is kept away when unfolding and folding this product.
- Do not let the child play with this product.
- Always use the restraint system provided and make sure the harness is correctly fitted.
- Always use the crotch strap in combination with the waist belt.
- This product is not suitable for running or skating.
- Tego siedziska nie można używać jako łóżeczka dziecięcego, nie należy go przenosić za pomocą rąk ani przemieszczać samodzielnie.
- W przypadku noworodka siedzisko powinno znajdować się w pozycji najbardziej odchylonej. W przypadku korzystania z wózka w pozycji odchylonej należy ustawić siedzisko w pozycji poziomej i odpiąć klamrę pod siedziskiem i za oparciem.
- The parking device shall be engaged when placing and removing the children.
- The maximum permissible loading for the shopping basket is 2kg.
- Any load attached to the handle and/or on the back and/or on the side will affect the stability of the vehicle.
- Use the stroller for only one child at a time.

- Accessories which are not approved by the manufacturer shall not be used.
- Only replacement parts supplied or recommended by the manufacturer/distributor shall be used.
- Do not use if any part is broken, torn or missing.
- Avoid placing the pushchair near naked heat sources such as electric bar fires, etc. or where a child could gain access to any other kinds of hazards.
- Check that the pram body or seat unit or car seat attachment devices are correctly engaged before use.
- For car seats used in conjunction with a chassis, this vehicle does not replace a cot or a bed, Should your child need to sleep, then it should be placed in a suitable pram body, cot or bed.

Lista części

<p>A</p>  <p>Podwozie x1</p>	<p>B</p>  <p>Siedzisko x1</p>	<p>C</p>  <p>Zderzak x1</p>
<p>D</p>  <p>Ośłona stopy x1</p>	<p>I</p>  <p>Przednie koła x2</p>	<p>F</p>  <p>Tylne koła x2</p>
<p>G</p>  <p>Oś tylnego koła x1</p>	<p>H</p>  <p>Rear wheel fittings x2</p>	<p>I</p>  <p>Netto x1</p>
<p>J</p>  <p>Fotelik samochodowy x1</p>		

1. Pull the handle bar up to unfold the chassis (A).

NOTE: The folding mechanism will “click” into place when the legs are fully extended.

2. Lean the chassis backwards and push each front wheel (E) assembly into the front wheel housing until the lock into place.

NOTE: Pull on the wheel assembly to ensure that it is securely attached to the chassis.

3a. Attach the rear wheel axle (G) to the chassis.

3b. Use the rear wheel fittings (H) for the next steps.

As illustrated, assemble a washer, followed by a rear wheel (F) and then another washer.

3c. Insert the cotter pin through end of the axle to secure. Finally attach the cover. Repeat steps for the other rear wheel.

Montaż siedziska

Włóż rurkę pod siedziskiem do plastikowej szczeliny, aż płytki sprężyny wyskoczy z otworu.

4.Align the seat unit (B) with the anchors on the side of the chassis and push them together until they “click” securely.

Press the release button as illustrated to remove the seat unit.

5.Attach the bumper bar (C) by aligning the anchors with the slots on the seat unit. Push until the bumper bar “clicks” into place.

NOTE: The bumper bar must be securely attached before using this product. Press the release button to remove the bumper bar.

6. Insert the bow of the canopy (D) into the anchors on the seat unit until it "clicks" into place. Fasten the snap buttons and do the zip.

Backrest Adjustment

The seat can be adjusted into upright, half-reclined and reclined positions. Pull up the recline lever on the rear of the seat unit and adjust the seat into the desired position.

NOTE: The footrest will adjust as the backrest is adjusted.

Regulacja ustawienia siedzenia

Ustaw siedzisko w pozycji poziomej i odepnij klamrę pod siedziskiem i za oparciem, jeśli używasz go w pozycji odchylonej.

UWAGA: Tego siedziska nie można używać jako łóżeczka dziecięcego, nie należy go przenosić ręcznie ani przenosić samodzielnie.

Reversible Seat Unit

The seat unit is reversible. It can be forward or parent facing.

Instalacja siatki

Wystarczy założyć siatkę zgodnie z rysunkiem.

Swivel Wheels

The front wheels are equipped with a swivel locking device. Push the button on each wheel up to fix the locks and push down to disengage the locks.

Brakes

To engage brakes, apply downward pressure to the brake lever located on the rear axle. Check that the stroller does not move once the brakes are properly applied.

To release, gently lift up on the brake lever.

Harness

1. Slide the shoulder strap buckle onto the housing of the waist strap buckle. Repeat for the other side.

2. Insert the completed buckle into the buckle housing until it engages securely in place. Listen for the “click”. Repeat for the opposite side.

3. Press the centre button to release child from harness.

4. To adjust the harness, move the slides as shown.

WARNING: Always adjust the harness to fit your child correctly for their comfort and safety. A loose fitting harness can be very dangerous.

5. The stroller has 2 shoulder height positions.

WARNING: Always adjust the shoulder harness length according to baby height.

SKŁADANIE

1. Fold the canopy and apply the brake.
2. Pull both release triggers and push the handle toward the floor.

NOTE: The stroller cannot be folded in parent facing position.

OPIEKA I UTRZYMANIE

Konserwacja:

Produkt wymaga regularnej konserwacji, aby zapewnić prawidłowe i bezpieczne działanie.
manie.

Regularnie sprawdzaj koła, zamki, hamulce, uprząż, zaczepy, regulatory siodła, przeguby i mocowania, aby upewnić się, że są czyste, działają prawidłowo i są w pełni sprawne.

Wymień opony, jeśli są nadmiernie zużyte.

Nie używaj tego produktu, jeśli jakkolwiek jego część jest uszkodzona, podarta lub jej brakuje. Używaj go wyłącznie części zamienne dostarczone przez producenta.

Jeśli części staną się sztywne lub trudne w obsłudze, upewnij się, że przyczyną nie jest brud, a następnie spróbuj delikatnie nałożyć smar silikonowy, upewniając się, że przeniknie on pomiędzy elementy. Regularne smarowanie ruchomych części przedłuży żywotność urządzenia produktu i ułatwiają otwieranie i składanie.

Wózek należy poddać przeglądowi i odnowie przed użyciem dla drugiego dziecka lub w ciągu 18 miesięcy, w zależności od tego, co nastąpi wcześniej.

Po wystawieniu na działanie wilgoci należy osuszyć miękką szmatką i pozostawić całkowicie otwarte w ciepłym pomieszczeniu. Przechowywanie wilgoci sprzyja tworzeniu się pleśni. Przechowywać w suchym miejscu.

Nie pozostawiaj na dłuższy czas na słońcu, ponieważ niektóre tkaniny mogą blaknąć.

Czyszczenie:

Tkaniny czyścić punktowo lub gąbką za pomocą łagodnego detergentu. Użyj łagodnego mydła lub szamponu do tapicerki. Prać oddzielnie. NIGDY nie używaj wybielacza. Dokładnie wysuszyć w cieniu przed ponownym użyciem i unikać bezpośredniego źródła ciepła i światła słonecznego. Nie prasować. Nie czyścić chemicznie.

Wytrzyj czyste tworzywa sztuczne i metale wilgotną szmatką. Nigdy nie czyść żadnej części produktu środkami ściernymi, na bazie amoniaku, wybielacza lub spirytusu.

Przed użyciem lub przechowywaniem upewnij się, że produkt jest całkowicie suchy.

Zawsze upewnij się, że produkt jest przechowywany w suchym miejscu, aby zapobiec pleśni rozwijający się.

1、 Important information

Notice for Child Size Range 40-87cm

- Notice!-This is an "i-Size" Enhanced Child Restraint System. It is approved according to UN Regulation No. 129, for use primarily in "Universal seating positions" as indicated by vehicle manufacturers in the vehicle user's manual.
- If in doubt, consult either the Enhanced Child Restraint System manufacturer or the retailer.
- The size range for which this device is intended is:

Orientation	Size range	Installation	Category
Rearward	40-87cm	ISOFIX	I-size Universal ISOFIX

Special note: This product will reduce the harm of traffic accidents to children, but cannot guarantee the absolute safety of children, so when you driving, please strictly abide the local traffic laws and regulations.

This product has been approved with regulation UN Regulation No.129/03.

2、 Warning

- 1) Please ensure that the Enhanced Child Restraint System is completely installed and fixed correctly, the rigid items and plastic parts of an Enhanced Child Restraint System shall be so located and installed that they are not liable, during everyday use of the vehicle, to become trapped by a movable seat or in a door of the vehicle.
- 2) Warning! -For rearward facing Enhanced Child Restraint Systems, not to use them in seating positions where there is an active frontal air bag installed.
- 3) Ensure that any straps holding the restraint to the vehicle should be tight, that any straps or impact shields restraining the child should be adjusted to the child's body, and that straps should not be twisted.
- 4) Ensure that any lap strap is worn low down, and that any impact shield installed properly, so that the pelvis is firmly engaged, shall be stressed.
- 5) The device should be replaced when it has been subject to violent stresses in an accident.
- 6) Warning!-It is dangerous to make any alterations or additions to the device without the approval of the Type Approval Authority, and It is dangerous of not following

closely the installation instructions provided by the child restraint manufacturer.

- 7) When the chair is not provided with a textile cover, the chair should be kept away from sunlight, otherwise it may be too hot for the child's skin.
- 8) Ensure that children are not left in their Enhanced Child Restraint System unattended.
- 9) Ensure that any luggage or other objects liable to cause injuries in the event of a collision shall be properly secured.
Please don't put heavy stuff in the car or the Enhanced Child Restraint System, it could cause injury in the accident.
- 10) Please take the child safety seat away from the corrosion.
- 11) The Enhanced Child Restraint System shall not be used without the cover.
- 12) The Enhanced Child Restraint System cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the restraint performance.
- 13) Please ensure that the adult safety- belt buckle relative to the main load bearing contact points on the restraint. The user shall be advised to contact the child restraint manufacturer if in doubt about this point.
- 14) Please not to use any load bearing contact points other than those described in the instructions and marked in the child restraint.
- 15) For an "i-Size Enhanced Child Restraint System", the user shall also be referred to the vehicle manufacturer's handbook.
- 16) Always ensure that the child safety seat is securely fastened, even when unoccupied, a loose seat can cause injuries in the event of a collision.
- 17) It is most important that the instruction manual should be retained on the child restraint for its life period.
- 18) Please buy the product from the decent sales channel, the manufacturer don't guarantee the quality of second hand product.
- 19) The illustrations in this manual are for reference only, and may differ slightly from your seat model.

3、Installation instructions

ECRS orientation	Size range	Installation method	Category
Rearward facing	40-87cm	ISOFIX	I-size Universal ISOFIX

	<p>① Can not be used in the passenger seat with the airbag activated.</p> <p>② Only suitable for seats with a 3 point safety belt.</p>
--	--

4、Usage methods

4.1. To adjust the height of the harness straps to fit your child:

Slide the two harness straps off the harness connector, then pull it through any of the two strap holes up or down on the seat's backrest. Re-thread the harness strap back onto the harness connector at the back of the seat.

Please make sure that the shoulder straps are at the correct height for your child. The child's shoulders should always be below the slot for the harness, choose the closely slot, but higher than the shoulder

4.2 Buckle use:

To lock the crotch strap and shoulder straps: Put the two buckle tongues together and engage in the harness buckle with an audible "CLICK".

Pig2.1

To release child, just press the red button on the buckle, the buckle tongues will pop up.

4.3 The adjustment of harness straps:

Firstly, adjust the length of the belt to fit your child, then Put the two buckle tongues together and engage in the harness buckle with an audible "CLICK". Press the adjustment button (See photo below) in the front of the seat and at the same time pull both shoulder straps forward to slacken the harness. To tighten the harness, you may just pulling forward the free end of the front belt. Fig.4.1, Fig.4.2

Securing the baby with the harness

4.4 Use of ISOFIX

If your vehicle is not equipped with the ISOFIX insert guides as standard, clip the two insert guides 02 which are included with the seat with the cut-out facing upwards

onto the two ISOFIX, attachment points 01 of your vehicle.

Put the base of the basket close to the back of the car seat and insert the ISOFIX interface.

4.5 The role of the basket handle

If you adjust the basket handle, please refer to the position as shown below:

Location A: Move/transport seats

Position B: When storing and storing

Position C: Install seats in the vehicle

5、 Installation methods For i-Size (40-87cm)

5.1 Basket body +ISOFIX base plus

For i-size (40-87cm):

a. ISOFIX preparation (optional for vehicle seat with ISOFIX anchorage point)

If your car is not equipped with ISOFIX connector guilders, the two ISOFIX connector guilders offered by the us are now available to be plunged into the ISOFIX setting (as shown in the picture)

b.Remove the base with ISOFIX and press the ISOFIX button to make ISOFIX extend to the maximum position, as shown below:

c.Push the ISOfix base toward the back of the seat, and the rear edge of the base is close to the car seat. The ISOFIX interface button is green, indicating that the ISOFIX base is installed.

d.The basket clipped into the base and clicked. Use your hand basket to see if it is jammed or wobbly.

6、Maintenance for child car seat

6.1 To retain the protective effect :

- * Do not allow the restraint to come into contact with polishes, oils, bleach and other chemicals.
- * In an accident at a collision speed above 10km/h the child seat could suffer damage which is not necessarily obvious. In this case, the child seat must be inspected by the manufacturer and if necessary replaced.
- * Regularly check all important parts for damage. Ensure the correct operation of all mechanical components.
- * To prevent damage or breakage, ensure that the child seat does not become jammed in the car door, seat runners, etc.
- * Should the child seat be damaged (for example after dropping it), it must be inspected by the manufacturer or the retailer.

6.2 Cleaning :

Please be sure to use only original replacement seat covers, as the seat cover is important to the proper functioning of the system. Replacement seat covers are available from your retailer

- *The child seat must **NOT BE USED WITHOUT THE SEAT COVER**.
- *The cover can be removed and washed with a mild detergent using the washing machine's cycle for delicate items (30 °C).
- * Please observe the instructions on the washing label of the cover. The colours of the cover may fade if washed at more than 30 °C. Do not spin, and never tumble dry in an electric clothes dryer (the fabric may separate from the padding).
- * The plastic parts can be cleaned using soapy water. Do not use harsh cleaning agents (such as solvents).
- * The harness can be removed and washed in lukewarm soapy water. The pull strap can't be removed, but it also can be wash without removing.

TEMPERATURE

DO NOT RINSE

NOT VERY HOT

NO DEHYDRATION

GENTLY RUB

LAY FLAT TO DRY

IMPORTANT – READ CAREFULLY AND KEEP FOR FUTURE REFERENCE

Thank you for choosing our product. Please always read all the instructions provided carefully before use and remember the child's safety may be affected if you do not follow these instructions. The pushchair is suitable from birth up to 15kg (approx. 36 months), never overload.

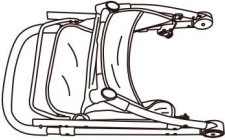

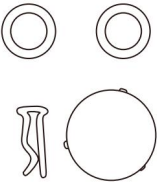

Dit product voldoet aan EN1888-1:2018+A1:2022.

WARNINGS:

- Never leave the child unattended.
- Ensure that all the locking devices are engaged before use.
- To avoid injury ensure that the child is kept away when unfolding and folding this product.
- Do not let the child play with this product.
- Always use the restraint system provided and make sure the harness is correctly fitted.
- Always use the crotch strap in combination with the waist belt.
- This product is not suitable for running or skating.
- Deze ziteenheid kan niet als carry-kinderbedje worden gebruikt, mag niet met de hand worden vervoerd of alleen worden verplaatst.
- Bij een pasgeboren baby moet het zitje in de meest liggende positie staan. Stel de stoel in een horizontale positie in en maak de gesp onder de stoel en achter de rugleuning los bij gebruik in de liggende stand van de wagen.
- The parking device shall be engaged when placing and removing the children.
- The maximum permissible loading for the shopping basket is 2kg.
- Any load attached to the handle and/or on the back and/or on the side will affect the stability of the vehicle.
- Use the stroller for only one child at a time.

- Accessories which are not approved by the manufacturer shall not be used.
- Only replacement parts supplied or recommended by the manufacturer/distributor shall be used.
- Do not use if any part is broken, torn or missing.
- Avoid placing the pushchair near naked heat sources such as electric bar fires, etc. or where a child could gain access to any other kinds of hazards.
- Check that the pram body or seat unit or car seat attachment devices are correctly engaged before use.
- For car seats used in conjunction with a chassis, this vehicle does not replace a cot or a bed, Should your child need to sleep, then it should be placed in a suitable pram body, cot or bed.

Onderdelen lijst

<p>A</p>  <p>Chassisx1</p>	<p>B</p>  <p>Ziteenheid x1</p>	<p>C</p>  <p>Bumperbalk x1</p>
<p>D</p>  <p>Voetbescherm x1</p>	<p>E</p>  <p>Voorwielen x2</p>	<p>F</p>  <p>Achterwielen x2</p>
<p>G</p>  <p>Achterwielas x1</p>	<p>H</p>  <p>Rear wheel fittings x2</p>	<p>I</p>  <p>Netto x1</p>
<p>J</p>  <p>Autostoel x1</p>		

1. Pull the handle bar up to unfold the chassis (A).

NOTE: The folding mechanism will “click” into place when the legs are fully extended.

2. Lean the chassis backwards and push each front wheel (E) assembly into the front wheel housing until the lock into place.

NOTE: Pull on the wheel assembly to ensure that it is securely attached to the chassis.

3a. Attach the rear wheel axle (G) to the chassis.

3b. Use the rear wheel fittings (H) for the next steps.

As illustrated, assemble a washer, followed by a rear wheel (F) and then another washer.

3c. Insert the cotter pin through end of the axle to secure. Finally attach the cover. Repeat steps for the other rear wheel.

Montage van de stoel

Steek de buis onder de stoel in de plastic gleuf totdat de veerplaat uit het gat springt.

4.Align the seat unit (B) with the anchors on the side of the chassis and push them together until they “click” securely.

Press the release button as illustrated to remove the seat unit.

5.Attach the bumper bar (C) by aligning the anchors with the slots on the seat unit. Push until the bumper bar “clicks” into place.

NOTE: The bumper bar must be securely attached before using this product. Press the release button to remove the bumper bar.

6. Insert the bow of the canopy (D) into the anchors on the seat unit until it "clicks" into place. Fasten the snap buttons and do the zip.

Backrest Adjustment

The seat can be adjusted into upright, half-reclined and reclined positions. Pull up the recline lever on the rear of the seat unit and adjust the seat into the desired position.

NOTE: The footrest will adjust as the backrest is adjusted.

Aanpassing van de zithouding

Stel de stoel in een horizontale positie in en maak de gesp onder de stoel en achter de rugleuning los bij gebruik in de liggende stand van het onderstel.

OPMERKING: Deze ziteenheid kan niet worden gebruikt als een cot-kinderbedje, mag niet met de hand worden vervoerd of alleen worden verplaatst.

Reversible Seat Unit

The seat unit is reversible. It can be forward or parent facing.

Netinstallatie

Plaats gewoon het net volgens de afbeelding.

Swivel Wheels

The front wheels are equipped with a swivel locking device. Push the button on each wheel up to fix the locks and push down to disengage the locks.

Brakes

To engage brakes, apply downward pressure to the brake lever located on the rear axle. Check that the stroller does not move once the brakes are properly applied.

To release, gently lift up on the brake lever.

Harness

1. Slide the shoulder strap buckle onto the housing of the waist strap buckle. Repeat for the other side.

2. Insert the completed buckle into the buckle housing until it engages securely in place. Listen for the “click”. Repeat for the opposite side.

3. Press the centre button to release child from harness.

4. To adjust the harness, move the slides as shown.

WARNING: Always adjust the harness to fit your child correctly for their comfort and safety. A loose fitting harness can be very dangerous.

5. The stroller has 2 shoulder height positions.

WARNING: Always adjust the shoulder harness length according to baby height.

VOUWEN

1. Fold the canopy and apply the brake.
2. Pull both release triggers and push the handle toward the floor.

NOTE: The stroller cannot be folded in parent facing position.

VERZORGING EN ONDERHOUD

Onderhoud:

Het product vereist regelmatig onderhoud om een correcte en veilige werking te garanderen.

mance.

Inspecteer regelmatig de wielen, sloten, remmen, harnas, sluitingen, stoelverstellers, verbindingen en bevestigingen om er zeker van te zijn dat ze schoon zijn, correct werken en volledig werken.

Vervang de banden als ze overmatig versleten zijn.

Gebruik dit product niet als een onderdeel kapot, gescheurd of ontbreekt en gebruik het alleen reserveonderdelen geleverd door de fabrikant.

Als onderdelen stijf worden of moeilijk te bedienen zijn, zorg er dan voor dat vuil niet de oorzaak is en probeer dan een lichte toepassing van een siliconensmeermiddel, zodat dit tussen de componenten doordringt. Regelmatige smering van bewegende onderdelen verlengt de levensduur van uw product en maken het openen en vouwen eenvoudiger.

De kinderwagen moet worden onderhouden en gereviseerd voordat deze voor een tweede baby wordt gebruikt, of binnen 18 maanden, afhankelijk van wat zich eerder voordoet.

Na blootstelling aan vochtige omstandigheden afdrogen met een zachte doek en volledig open laten liggen in een warme omgeving. Het opslaan van vocht bevordert de vorming van schimmel. Bewaren in een droge plaats.

Laat het niet langdurig in het zonlicht liggen, omdat sommige stoffen kunnen verkleuren.

Schoonmaak:

Maak stoffen schoon met een mild wasmiddel of spons ze schoon. Gebruik milde zeep of meubelshampoo.

Gescheiden wassen. Gebruik NOOIT bleekmiddel. Droog grondig in de schaduw vóór hergebruik en vermijd directe hitte en zonlicht. Niet strijken. Niet chemisch reinigen.

Veeg kunststoffen en metalen schoon met een vochtige doek. Maak nooit enig onderdeel van het product schoon met schuurmiddelen, schoonmaakmiddelen op ammoniakbasis, bleekmiddel of spiritus.

Zorg ervoor dat het product volledig droog is voordat u het gebruikt of opbergt.

Zorg er altijd voor dat het product op een droge plaats wordt bewaard om schimmel te voorkomen ontwikkelen.

1、 Important information

Notice for Child Size Range 40-87cm

- Notice!-This is an "i-Size" Enhanced Child Restraint System. It is approved according to UN Regulation No. 129, for use primarily in "Universal seating positions" as indicated by vehicle manufacturers in the vehicle user's manual.
- If in doubt, consult either the Enhanced Child Restraint System manufacturer or the retailer.
- The size range for which this device is intended is:

Orientation	Size range	Installation	Category
Rearward	40-87cm	ISOFIX	I-size Universal ISOFIX

Special note: This product will reduce the harm of traffic accidents to children, but cannot guarantee the absolute safety of children, so when you driving, please strictly abide the local traffic laws and regulations.

This product has been approved with regulation UN Regulation No.129/03.

2、 Warning

- 1) Please ensure that the Enhanced Child Restraint System is completely installed and fixed correctly, the rigid items and plastic parts of an Enhanced Child Restraint System shall be so located and installed that they are not liable, during everyday use of the vehicle, to become trapped by a movable seat or in a door of the vehicle.
- 2) Warning! -For rearward facing Enhanced Child Restraint Systems, not to use them in seating positions where there is an active frontal air bag installed.
- 3) Ensure that any straps holding the restraint to the vehicle should be tight, that any straps or impact shields restraining the child should be adjusted to the child's body, and that straps should not be twisted.
- 4) Ensure that any lap strap is worn low down, and that any impact shield installed properly, so that the pelvis is firmly engaged, shall be stressed.
- 5) The device should be replaced when it has been subject to violent stresses in an accident.
- 6) Warning!-It is dangerous to make any alterations or additions to the device without the approval of the Type Approval Authority, and It is dangerous of not following

closely the installation instructions provided by the child restraint manufacturer.

- 7) When the chair is not provided with a textile cover, the chair should be kept away from sunlight, otherwise it may be too hot for the child's skin.
- 8) Ensure that children are not left in their Enhanced Child Restraint System unattended.
- 9) Ensure that any luggage or other objects liable to cause injuries in the event of a collision shall be properly secured.
Please don't put heavy stuff in the car or the Enhanced Child Restraint System, it could cause injury in the accident.
- 10) Please take the child safety seat away from the corrosion.
- 11) The Enhanced Child Restraint System shall not be used without the cover.
- 12) The Enhanced Child Restraint System cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the restraint performance.
- 13) Please ensure that the adult safety- belt buckle relative to the main load bearing contact points on the restraint. The user shall be advised to contact the child restraint manufacturer if in doubt about this point.
- 14) Please not to use any load bearing contact points other than those described in the instructions and marked in the child restraint.
- 15) For an "i-Size Enhanced Child Restraint System", the user shall also be referred to the vehicle manufacturer's handbook.
- 16) Always ensure that the child safety seat is securely fastened, even when unoccupied, a loose seat can cause injuries in the event of a collision.
- 17) It is most important that the instruction manual should be retained on the child restraint for its life period.
- 18) Please buy the product from the decent sales channel, the manufacturer don't guarantee the quality of second hand product.
- 19) The illustrations in this manual are for reference only, and may differ slightly from your seat model.

3、Installation instructions

ECRS orientation	Size range	Installation method	Category
Rearward facing	40-87cm	ISOFIX	I-size Universal ISOFIX

4、Usage methods

4.1. To adjust the height of the harness straps to fit your child:

Slide the two harness straps off the harness connector, then pull it through any of the two strap holes up or down on the seat's backrest. Re-thread the harness strap back onto the harness connector at the back of the seat.

Please make sure that the shoulder straps are at the correct height for your child. The child's shoulders should always be below the slot for the harness, choose the closely slot, but higher than the shoulder

4.2 Buckle use:

To lock the crotch strap and shoulder straps: Put the two buckle tongues together and engage in the harness buckle with an audible "CLICK".

Pig2.1

To release child, just press the red button on the buckle, the buckle tongues will pop up.

4.3 The adjustment of harness straps:

Firstly, adjust the length of the belt to fit your child, then Put the two buckle tongues together and engage in the harness buckle with an audible "CLICK". Press the adjustment button (See photo below) in the front of the seat and at the same time pull both shoulder straps forward to slacken the harness. To tighten the harness, you may just pulling forward the free end of the front belt. Fig.4.1, Fig.4.2

Securing the baby with the harness

4.4 Use of ISOFIX

If your vehicle is not equipped with the ISOFIX insert guides as standard, clip the two insert guides 02 which are included with the seat with the cut-out facing upwards

onto the two ISOFIX attachment points 01 of your vehicle.

Put the base of the basket close to the back of the car seat and insert the ISOFIX interface.

4.5 The role of the basket handle

If you adjust the basket handle, please refer to the position as shown below:

Location A: Move/transport seats

Position B: When storing and storing

Position C: Install seats in the vehicle

5、 Installation methods For i-Size (40-87cm)

5.1 Basket body +ISOFIX base plus

For i-size (40-87cm):

a. ISOFIX preparation (optional for vehicle seat with ISOFIX anchorage point)

If your car is not equipped with ISOFIX connector guilders, the two ISOFIX connector guilders offered by the us are now available to be plunged into the ISOFIX setting (as shown in the picture)

b.Remove the base with ISOFIX and press the ISOFIX button to make ISOFIX extend to the maximum position, as shown below:

c.Push the ISOfix base toward the back of the seat, and the rear edge of the base is close to the car seat. The ISOFIX interface button is green, indicating that the ISOFIX base is installed.

d.The basket clipped into the base and clicked. Use your hand basket to see if it is jammed or wobbly.

6、Maintenance for child car seat

6.1 To retain the protective effect :

- * Do not allow the restraint to come into contact with polishes, oils, bleach and other chemicals.
- * In an accident at a collision speed above 10km/h the child seat could suffer damage which is not necessarily obvious. In this case, the child seat must be inspected by the manufacturer and if necessary replaced.
- * Regularly check all important parts for damage. Ensure the correct operation of all mechanical components.
- * To prevent damage or breakage, ensure that the child seat does not become jammed in the car door, seat runners, etc.
- * Should the child seat be damaged (for example after dropping it), it must be inspected by the manufacturer or the retailer.

6.2 Cleaning :

Please be sure to use only original replacement seat covers, as the seat cover is important to the proper functioning of the system. Replacement seat covers are available from your retailer

- *The child seat must **NOT BE USED WITHOUT THE SEAT COVER**.
- *The cover can be removed and washed with a mild detergent using the washing machine's cycle for delicate items (30 °C).
- * Please observe the instructions on the washing label of the cover. The colours of the cover may fade if washed at more than 30 °C. Do not spin, and never tumble dry in an electric clothes dryer (the fabric may separate from the padding).
- * The plastic parts can be cleaned using soapy water. Do not use harsh cleaning agents (such as solvents).
- * The harness can be removed and washed in lukewarm soapy water. The pull strap can't be removed, but it also can be wash without removing.

Detta är den ursprungliga instruktionen, läs alla instruktioner noggrant innan du använder den. VEVOR reserverar sig för en tydlig tolkning av vår användarmanual. Utseendet på produkten är beroende av den produkt du fått. Ursäkta oss att vi inte kommer att informera dig igen om det finns någon teknik eller mjukvaruuppdateringar på vår produkt.

IMPORTANT – READ CAREFULLY AND KEEP FOR FUTURE REFERENCE

Thank you for choosing our product. Please always read all the instructions provided carefully before use and remember the child's safety may be affected if you do not follow these instructions. The pushchair is suitable from birth up to 15kg (approx. 36 months), never overload.

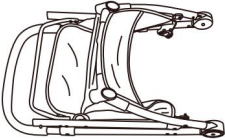

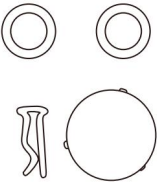

Denna produkt uppfyller EN1888-1:2018+A1:2022.

WARNINGS:

- Never leave the child unattended.
- Ensure that all the locking devices are engaged before use.
- To avoid injury ensure that the child is kept away when unfolding and folding this product.
- Do not let the child play with this product.
- Always use the restraint system provided and make sure the harness is correctly fitted.
- Always use the crotch strap in combination with the waist belt.
- This product is not suitable for running or skating.
- Denna sittenhets kan inte användas som en cory spjäsäng, inte transporteras för hand eller flytta ensam.
- För ett nyfött barn bör sittedelen vara i det mest tillbakalutade läget. Justera sätet till ett horisontellt läge och lossa spännet under sätet och bakom ryggstödet när du använder det i lutande vagnläge.
- The parking device shall be engaged when placing and removing the children.
- The maximum permissible loading for the shopping basket is 2kg.
- Any load attached to the handle and/or on the back and/or on the side will affect the stability of the vehicle.
- Use the stroller for only one child at a time.

- Accessories which are not approved by the manufacturer shall not be used.
- Only replacement parts supplied or recommended by the manufacturer/distributor shall be used.
- Do not use if any part is broken, torn or missing.
- Avoid placing the pushchair near naked heat sources such as electric bar fires, etc. or where a child could gain access to any other kinds of hazards.
- Check that the pram body or seat unit or car seat attachment devices are correctly engaged before use.
- For car seats used in conjunction with a chassis, this vehicle does not replace a cot or a bed, Should your child need to sleep, then it should be placed in a suitable pram body, cot or bed.

Lista över delar

<p>A</p>  <p>Chassi x1</p>	<p>B</p>  <p>Sittenhet x1</p>	<p>C</p>  <p>Bumper bar x1</p>

<p>J</p>  <p>Bilbarnstol x1</p>		

1. Pull the handle bar up to unfold the chassis (A).

NOTE: The folding mechanism will “click” into place when the legs are fully extended.

2. Lean the chassis backwards and push each front wheel (E) assembly into the front wheel housing until the lock into place.

NOTE: Pull on the wheel assembly to ensure that it is securely attached to the chassis.

3a. Attach the rear wheel axle (G) to the chassis.

3b. Use the rear wheel fittings (H) for the next steps.

As illustrated, assemble a washer, followed by a rear wheel (F) and then another washer.

3c. Insert the cotter pin through end of the axle to secure. Finally attach the cover. Repeat steps for the other rear wheel.

Montering av sitsen

Sätt in röret under sätet i plastslitsen tills fjäderplattan hoppar ut ur hålet.

4.Align the seat unit (B) with the anchors on the side of the chassis and push them together until they “click” securely.

Press the release button as illustrated to remove the seat unit.

5.Attach the bumper bar (C) by aligning the anchors with the slots on the seat unit. Push until the bumper bar “clicks” into place.

NOTE: The bumper bar must be securely attached before using this product. Press the release button to remove the bumper bar.

6. Insert the bow of the canopy (D) into the anchors on the seat unit until it "clicks" into place. Fasten the snap buttons and do the zip.

Backrest Adjustment

The seat can be adjusted into upright, half-reclined and reclined positions. Pull up the recline lever on the rear of the seat unit and adjust the seat into the desired position.

NOTE: The footrest will adjust as the backrest is adjusted.

Justering av sätesinställning

Justera sätet till horisontellt läge och lossa spännet under sätet och bakom ryggstödet vid användning i lutande vagnläge.

OBSERVERA: Denna sittenhets kan inte användas som en spjålsäng, transporteras inte för hand eller flyttas ensam.

Reversible Seat Unit

The seat unit is reversible. It can be forward or parent facing.

Nätinstallation Lagg

bara på nätet enligt bilden.

Swivel Wheels

The front wheels are equipped with a swivel locking device. Push the button on each wheel up to fix the locks and push down to disengage the locks.

Brakes

To engage brakes, apply downward pressure to the brake lever located on the rear axle. Check that the stroller does not move once the brakes are properly applied.

To release, gently lift up on the brake lever.

Harness

1. Slide the shoulder strap buckle onto the housing of the waist strap buckle. Repeat for the other side.

2. Insert the completed buckle into the buckle housing until it engages securely in place. Listen for the “click”. Repeat for the opposite side.

3. Press the centre button to release child from harness.

4. To adjust the harness, move the slides as shown.

WARNING: Always adjust the harness to fit your child correctly for their comfort and safety. A loose fitting harness can be very dangerous.

5. The stroller has 2 shoulder height positions.

WARNING: Always adjust the shoulder harness length according to baby height.

HOPFÄLLBAR

1. Fold the canopy and apply the brake.
2. Pull both release triggers and push the handle toward the floor.

NOTE: The stroller cannot be folded in parent facing position.

VÅRD OCH UNDERHÅLL

Underhåll:

Produkten kräver regelbundet underhåll för att säkerställa korrekt och säker prestanda. mance.

Inspektera regelbundet hjul, lås, bromsar, sele, spärrhakar, sätesjusteringar, leder och fästen för att säkerställa att de är rena, fungerar korrekt och i fullt fungerande skick.

Byt däck om de är för slitna.

Använd inte denna produkt om någon del är trasig, trasig eller saknas och använd endast reservdelar som tillhandahålls av tillverkaren.

Om delar blir styva eller svåra att använda, se till att smuts inte är orsaken, försök sedan applicera lätt silikonsmörjmedel och se till att det tränger in mellan komponenterna. Regelbunden smörjning av rörliga delar förlänger din livslängd produkt och gör öppning och vikning lättare.

Vagnen bör servas och renoveras innan den används för ett andra barn, eller inom 18 månader, beroende på vilket som inträffar först.

Efter exponering för fuktiga förhållanden, torka av med en mjuk trasa och lämna helt öppen i en varm miljö. Lagring av fukt kommer att uppmuntra mögel att bildas. Förvara i en torr plats.

Lämna inte i solljus under längre perioder eftersom vissa tyger kan blekna.

Rengöring:

Spot eller svamp rena tyger med milt rengöringsmedel. Använd mild tvål eller klädselschampo.

Tvätta separat. Använd ALDRIG blekmedel. Torka noggrant i skuggan

före återanvändning och undvik direkt värme och solljus. Stryk inte. Inte kemtvättas.

Torka rent plast och metall med en fuktig trasa. Rengör aldrig någon del av produkten med slipmedel, ammoniakbaserade, blekmedelsbaserade eller spritbaserade rengöringsmedel.

Se till att produkten är helt torr före användning eller förvaring.

Se alltid till att produkten förvaras på en torr plats för att förhindra mögel eller mögel utvecklande.

1、 Important information

Notice for Child Size Range 40-87cm

- Notice!-This is an "i-Size" Enhanced Child Restraint System. It is approved according to UN Regulation No. 129, for use primarily in "Universal seating positions" as indicated by vehicle manufacturers in the vehicle user's manual.
- If in doubt, consult either the Enhanced Child Restraint System manufacturer or the retailer.
- The size range for which this device is intended is:

Orientation	Size range	Installation	Category
Rearward	40-87cm	ISOFIX	I-size Universal ISOFIX

Special note: This product will reduce the harm of traffic accidents to children, but cannot guarantee the absolute safety of children, so when you driving, please strictly abide the local traffic laws and regulations.

This product has been approved with regulation UN Regulation No.129/03.

2、 Warning

- 1) Please ensure that the Enhanced Child Restraint System is completely installed and fixed correctly, the rigid items and plastic parts of an Enhanced Child Restraint System shall be so located and installed that they are not liable, during everyday use of the vehicle, to become trapped by a movable seat or in a door of the vehicle.
- 2) Warning! -For rearward facing Enhanced Child Restraint Systems, not to use them in seating positions where there is an active frontal air bag installed.
- 3) Ensure that any straps holding the restraint to the vehicle should be tight, that any straps or impact shields restraining the child should be adjusted to the child's body, and that straps should not be twisted.
- 4) Ensure that any lap strap is worn low down, and that any impact shield installed properly, so that the pelvis is firmly engaged, shall be stressed.
- 5) The device should be replaced when it has been subject to violent stresses in an accident.
- 6) Warning!-It is dangerous to make any alterations or additions to the device without the approval of the Type Approval Authority, and It is dangerous of not following

closely the installation instructions provided by the child restraint manufacturer.

- 7) When the chair is not provided with a textile cover, the chair should be kept away from sunlight, otherwise it may be too hot for the child's skin.
- 8) Ensure that children are not left in their Enhanced Child Restraint System unattended.
- 9) Ensure that any luggage or other objects liable to cause injuries in the event of a collision shall be properly secured.
Please don't put heavy stuff in the car or the Enhanced Child Restraint System, it could cause injury in the accident.
- 10) Please take the child safety seat away from the corrosion.
- 11) The Enhanced Child Restraint System shall not be used without the cover.
- 12) The Enhanced Child Restraint System cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the restraint performance.
- 13) Please ensure that the adult safety- belt buckle relative to the main load bearing contact points on the restraint. The user shall be advised to contact the child restraint manufacturer if in doubt about this point.
- 14) Please not to use any load bearing contact points other than those described in the instructions and marked in the child restraint.
- 15) For an "i-Size Enhanced Child Restraint System", the user shall also be referred to the vehicle manufacturer's handbook.
- 16) Always ensure that the child safety seat is securely fastened, even when unoccupied, a loose seat can cause injuries in the event of a collision.
- 17) It is most important that the instruction manual should be retained on the child restraint for its life period.
- 18) Please buy the product from the decent sales channel, the manufacturer don't guarantee the quality of second hand product.
- 19) The illustrations in this manual are for reference only, and may differ slightly from your seat model.

3、Installation instructions

ECRS orientation	Size range	Installation method	Category
Rearward facing	40-87cm	ISOFIX	I-size Universal ISOFIX

4、Usage methods

4.1. To adjust the height of the harness straps to fit your child:

Slide the two harness straps off the harness connector, then pull it through any of the two strap holes up or down on the seat's backrest. Re-thread the harness strap back onto the harness connector at the back of the seat.

Please make sure that the shoulder straps are at the correct height for your child. The child's shoulders should always be below the slot for the harness, choose the closely slot, but higher than the shoulder

4.2 Buckle use:

To lock the crotch strap and shoulder straps: Put the two buckle tongues together and engage in the harness buckle with an audible "CLICK".

Pig2.1

To release child, just press the red button on the buckle, the buckle tongues will pop up.

4.3 The adjustment of harness straps:

Firstly, adjust the length of the belt to fit your child, then Put the two buckle tongues together and engage in the harness buckle with an audible "CLICK". Press the adjustment button (See photo below) in the front of the seat and at the same time pull both shoulder straps forward to slacken the harness. To tighten the harness, you may just pulling forward the free end of the front belt. Fig.4.1, Fig.4.2

Securing the baby with the harness

4.4 Use of ISOFIX

If your vehicle is not equipped with the ISOFIX insert guides as standard, clip the two insert guides 02 which are included with the seat with the cut-out facing upwards

onto the two ISOFIX attachment points 01 of your vehicle.

Put the base of the basket close to the back of the car seat and insert the ISOFIX interface.

4.5 The role of the basket handle

If you adjust the basket handle, please refer to the position as shown below:

Location A: Move/transport seats

Position B: When storing and storing

Position C: Install seats in the vehicle

5、 Installation methods For i-Size (40-87cm)

5.1 Basket body +ISOFIX base plus

For i-size (40-87cm):

a. ISOFIX preparation (optional for vehicle seat with ISOFIX anchorage point)

If your car is not equipped with ISOFIX connector guilders, the two ISOFIX connector guilders offered by the us are now available to be plunged into the ISOFIX setting (as shown in the picture)

b.Remove the base with ISOFIX and press the ISOFIX button to make ISOFIX extend to the maximum position, as shown below:

c.Push the ISOfix base toward the back of the seat, and the rear edge of the base is close to the car seat. The ISOFIX interface button is green, indicating that the ISOFIX base is installed.

d.The basket clipped into the base and clicked. Use your hand basket to see if it is jammed or wobbly.

6、Maintenance for child car seat

6.1 To retain the protective effect :

- * Do not allow the restraint to come into contact with polishes, oils, bleach and other chemicals.
- * In an accident at a collision speed above 10km/h the child seat could suffer damage which is not necessarily obvious. In this case, the child seat must be inspected by the manufacturer and if necessary replaced.
- * Regularly check all important parts for damage. Ensure the correct operation of all mechanical components.
- * To prevent damage or breakage, ensure that the child seat does not become jammed in the car door, seat runners, etc.
- * Should the child seat be damaged (for example after dropping it), it must be inspected by the manufacturer or the retailer.

6.2 Cleaning :

Please be sure to use only original replacement seat covers, as the seat cover is important to the proper functioning of the system. Replacement seat covers are available from your retailer

- *The child seat must **NOT BE USED WITHOUT THE SEAT COVER**.
- *The cover can be removed and washed with a mild detergent using the washing machine's cycle for delicate items (30 °C).
- * Please observe the instructions on the washing label of the cover. The colours of the cover may fade if washed at more than 30 °C. Do not spin, and never tumble dry in an electric clothes dryer (the fabric may separate from the padding).
- * The plastic parts can be cleaned using soapy water. Do not use harsh cleaning agents (such as solvents).
- * The harness can be removed and washed in lukewarm soapy water. The pull strap can't be removed, but it also can be wash without removing.
