BRAKE FLUID BLEEDER

MODEL: YS-092

We continue to be committed to provide you tools with competitive price.

"Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

SAFETY INSTRUCTIONS

1. Please do not let children use.
2. Pay attention to personal hygiene.
3. Untrained personnel are not allowed to use the device.
4. Do not use the equipment while under the influence of narcotic drugs, alcohol and narcotic drugs.
5. Sewage must be disposed of in accordance with the regulations of the local management authority.
6. Please read the notice on the brake system before use.
7. Please wear safety goggles and watch out for brake fluid touching your skin. If fluid gets into your eyes, flush your eyes immediately and consult your doctor right away.
8. Used brake fluid or other liquids can contaminate the entire system and may cause brake system failure.
9. Don't abuse water so as not to pollute the environment.
10. The brake fluid is flammable and fire sources, including hot surfaces (such as smoke), must be avoided.

MODEL AND PARAMETERS

Model	YS-092
Capacity	2L
Material	HDPE

STRUCTURE DIAGRAM

INSTRUCTIONS FOR USE

1. Unscrew the cap, add brake fluid to the reservoir.
2. Connect the adapter to your vehicle.
3. Push/pull the handle to start operation.

NOTE: Replace the fuel tank cap on the vehicle in time to ensure that the liquid level is the maximum displayed on the vehicle fuel tank. Before driving the vehicle, carefully check for leaks and test that the brakes are working properly.

MAINTENANCE

1. After use, clean with a clean, dry cloth.
2. If not in use, empty the tank of liquid. Keep the tubes and adapters clean for future use.
3. Store it in a clean, dry place out of reach of children.
