FISHING CART

MODEL: YK-300

We continue to be committed to provide you tools with competitive price.

"Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

SAFETY INSTRUCTIONS

1. Please confirm that the cart is intact and the tire pressure is normal before each use. Please inflate a little before using the wheels, and be careful not to over-inflate! Maximum inflation pressure 2-3psi, the maximum diameter of the wheel after inflation should not exceed 33cm (13-inch)!
2. It is forbidden to carry people under any condition.
3. It is forbidden to load articles on uneven and hilly terrains.
4. Overload is strictly prohibited.
5. Don't move too fast when passing pothole areas.

STRUCTURE DIAGRAM

INSTALLATION

		
M6x20 Bolts x3 (Need two, one more)	M6x50 Bolts x3 (Need two, one more)	User Manual x1

	
Plastic cardboard jig x 2	Hand Pump x1

Step 1: Connect the two lower frames together using the M5x35 bolts and the connection block.

Step 2: Attach the upper frame in the same manner.

Step 3: Mounting the frame.

NOTE: The frames have pre-drilled holes for mounting the fishing barrels. The number of pre-drilled holes on the upper and lower frames on the same side should be the same.

Step 4: Install all rod barrels, then wheels.

NOTE: Please inflate the wheels before installation.

Connect the 2 plates from head to end to make a circle.

Insert the wheel into the jig. Inflate the balloon wheel with your pump.

Finish inflating when wheel diameter is same as inner diameter of the jig.

NOTE: Insert the plastic parts of the wheel axle into the ends of the bottom cross member of the frame, then insert the wheel axle, and finally install the wheel on it.

Step 5: Put in the washer first, then insert the O-pin.

Step6: Installation complete.

MAINTENANCE

1. Clean the surface after each use .
2. Please check and confirm that the cart is intact and the tire pressure is normal before each use.
3. Check that the bolts are tight.
