SNATCH BLOCK WITH CHAIN USER MANUAL

MODEL: 8mmX3FT

We continue to be committed to provide you tools with competitive price.

"Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

SAFETY INSTRUCTION AND PRECAUTIONS

⚠WARNING:

1. Used as intended only. Do not overload.
2. Twisting and entanglement of chains are strictly prohibited during the use of pulleys.
3. Keep the chain in a natural, vertical, and flat state on the pulley.
4. Please reserve it in a cool and dry environment.

Product Use: A simple lifting machinery that vertically lifts heavy objects through sprockets or drums.

Instructions for use

1. This product does not require assembly and can be used directly after taking out
2. The steel rope and hemp rope adapted to the pulley during use should not exceed 10mm
3. Try not to use plastic fiber ropes, such as hemp rope, nylon rope, etc., when using the grappling hook. If it is necessary to use ropes with a diameter not larger than the diameter of the hook, the tension should be determined according to the normal load-bearing capacity of the rope you are using.
4. If the hook needs to be adapted to the chain, the size of the adapted chain is 8mm .

Maintenance and upkeep

1. Regularly check if the pulley rotates flexibly
2. Regularly or before and after product use, add lubricating oil and butter (as shown in the figure)
3. Regularly inspect the chain and hooks for deformation
4. If any deformation or cracks are found in accessories such as chains, hooks, and lifting rings, please stop using them
5. The product needs to avoid a damp and rainy environment to prevent rusting.
