Over dit artikel

- **Gezamenlijke ondersteuning:** Hondentrappen voor auto's zijn het beste voor grote honden, korte benen, oudere honden en honden met mobiliteitsproblemen zoals artritis, waardoor honden onafhankelijk kunnen blijven wanneer ze op auto's en hoge bedden stappen.
- **Schuimhandvat en veiligheidskoordclip:** het ontwerp van het schuimhandvat kan aan voertuigen worden bevestigd wanneer uw hond de trede beklimt en schudt niet, met een veiligheidskoord aan de achterklepsluiting om te voorkomen dat de hondenoprit losraakt of omvalt.
- **Antislippoppervlak en onderkant:** Er zijn antislippoppervlakken met printcoating op deze hondentrap, die uitglijden voorkomen bij het op- of aflopen van uw voertuig. De aan de onderkant bevestigde antislip rubberen mat zorgt ervoor dat de hondenloopplank niet beweegt, zelfs niet op gladde plaatsen.
- **Draagbaarheid en gemakkelijk op te bergen:** de hondentrap maakt gebruik van een aluminium frame dat licht, duurzaam en gemakkelijk op te vouwen is. Wanneer het plat wordt opgevouwen , kan het gemakkelijk met de hand worden gedragen en compact en ruimtebesparend worden opgeborgen. Elke trede is duurzaam genoeg om zwaar gebruik te weerstaan.
- **Multifunctioneel:** hondenstappen hebben twee hoeken om uit te kiezen: lage hoek en normale rek. De verstelbare hoogte betekent dat hij geschikt is voor een verscheidenheid aan honden om in verschillende scènes te gebruiken, zoals sedans, SUV's, minibusjes, vrachtwagens, bedden, banken, trimtafels of dierenartstafels.
