Material introduction

Process Characteristics

◆ Marine Carpet--Protects ship floor surface clean.

Note: Different visual angles and lights would make the color looks various on the carpet.

◆ Absorbent felt material : The ribbed texture on the surface increases friction, which not only avoids sliding but also maintains a soft feel even when you walk barefoot.

◆ Tear Resistant.

◆ TPR backing-Made of soft rubber material, it can effectively prevent water penetration, avoid carpet sliding, and will not scratch the floor.

◆ Easy to clean - scrub with soap, lay flat to dry, or vacuum to quickly clean tough stains.

◆ Easy to cut-you can easily cut the bass boat carpet into any shape to fit any space with scissors or utility knives.
