## PRODUCTS INTRODUCTION

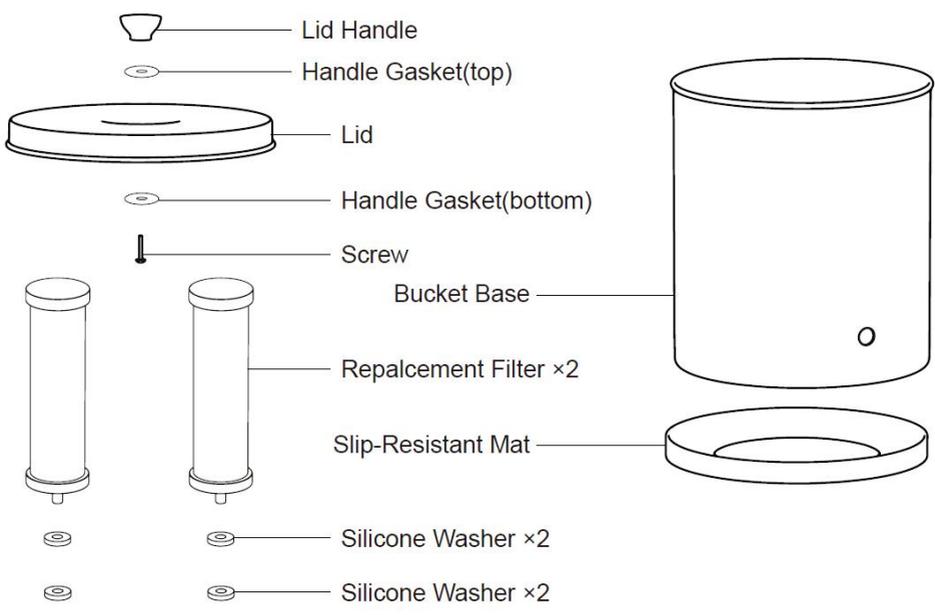

The Gravity-Fed Water Filtration System can make unreliable water source safe to drink with low cost. No extra pressure required. It helps you to get healthy, mineral, great-tasting water from tap or any fresh water sources, no matter when you're at home, on a campsite or RV.

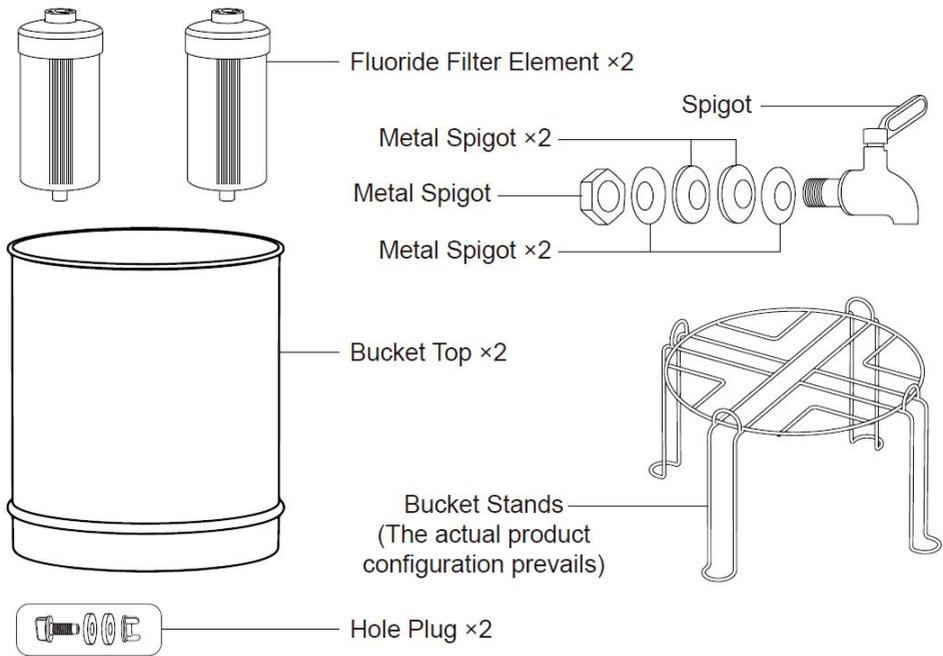

## INTRODUCTION

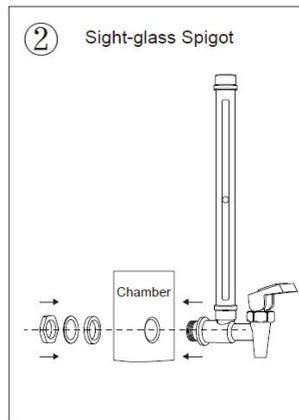

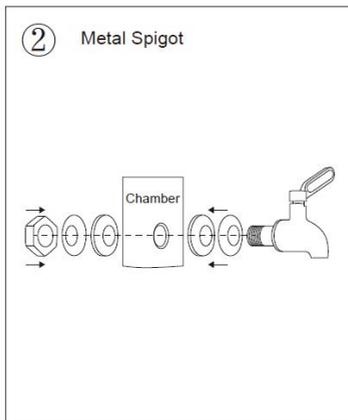

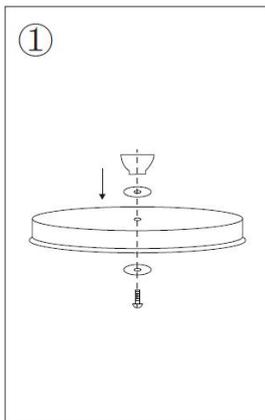

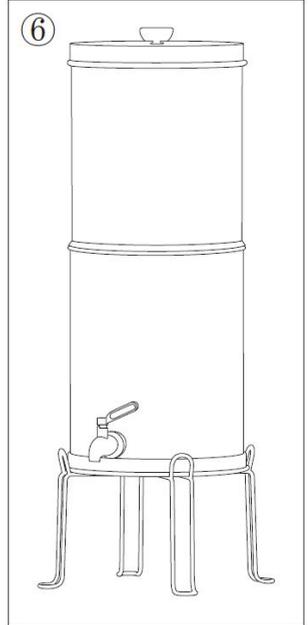

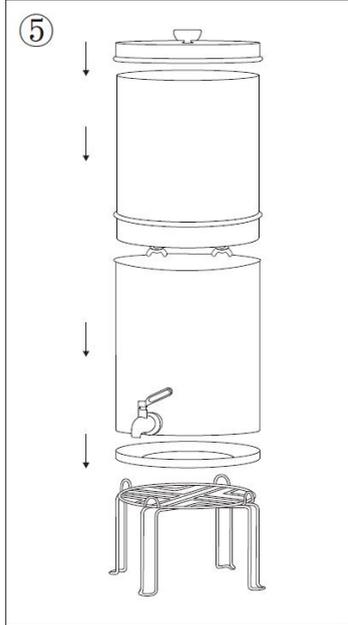

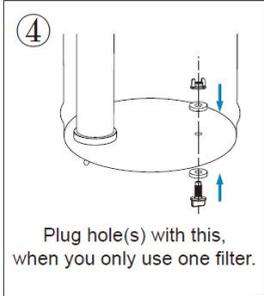

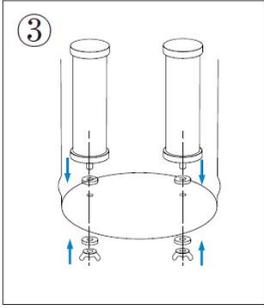

## INTRODUCTION

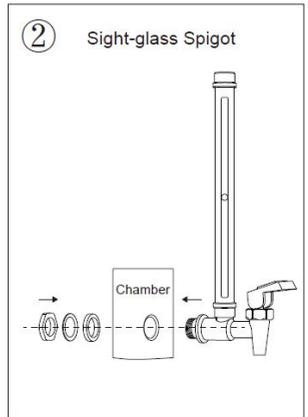

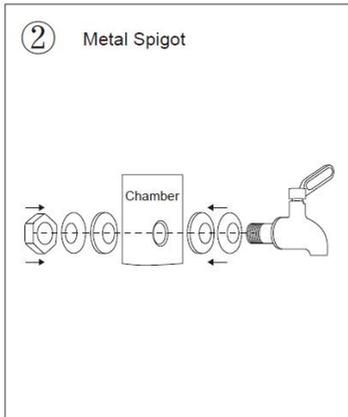

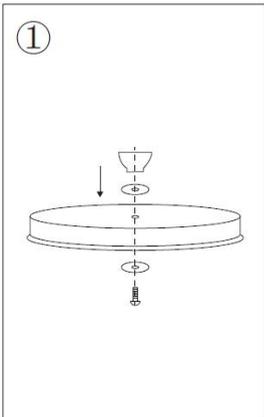

## INSTALLATION

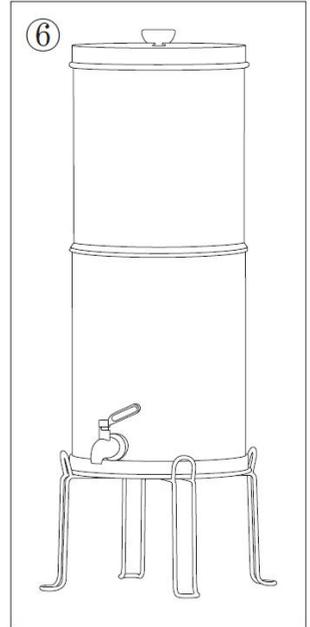

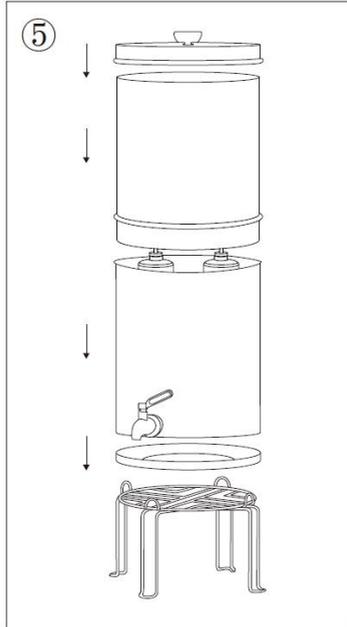

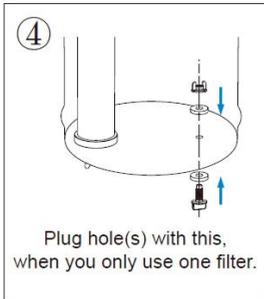

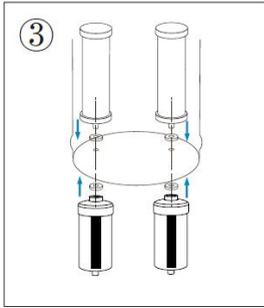

Note: To prevent overflow, you need to confirm the water level in the bottom container for the second or following addition of water. For example, only two-thirds of the water can be added to the upper container, while one-third is in the bottom container.

## INSTALLATION

Note: For second or following adding water, in order to prevent over flow, you need to confirm the water level in bottom container. For example: only two thirds water is allowed to be added into upper container, when one thirds water in bottom container.

## FEATURES

**Flexible** - It's so convenient and easy to use; you can take them anywhere: on vacations, hunting & camping trips, and college dorms, and they are ideal systems for RVs, pleasure crafts, and cottage lifestyles.

**Easy Installation** - You can set up this complete standalone system in less than 8 minutes without any tools.

**Emergency Preparedness**—It is a great survival gear in an emergency situation as it works without the need for electricity and can purify raw, untreated water from remote lakes and streams.

**Money saving** - It is the most economical water purification system available in the market.

**Food Grade**- The chambers are made of food-grade 304 stainless steel, which is

100% safe for human consumption.

**This water filter system removes an extensive range of water borne contaminants & improves water taste.**

Harmful microorganisms, including pathogenic bacteria, cysts, protozoa & parasites.

Disinfectants like chlorine and chloramines

**WARNING: Please Read Carefully Before Use.**

PPM is not dropping while tested by TDS meter: has a unique technology that removes 99.99% of contaminants while leaving all the essential minerals in water such as Calcium, Potassium, Sodium, Magnesium ect. All healthy water has a certain level of total dissolved solids, they are essential minerals. The TDS meters are not an effective way to measure the water quality, the water without TDS is normally produced by reverse osmosis system.

**Designed For**

Pregnant woman

Child

Family

## Suitable for the scene

Kitchen/Living room

Pichic/Camping

RV/Dining Car
