PASTE LIQUID FILLING MACHINE

USER MANUAL

We continue to be committed to provide you tools with competitive price.

"Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

⚠️ WARNING

1. Read carefully and understand all **ASSEMBLY AND OPERATION INSTRUCTIONS** before operating.
2. Failure to follow the safety rules and other basic safety precautions may result in serious personal injury.

GENERAL SAFETY RULES

Important reminder

1. Before use, please carefully read the product manual and ensure that you understand and comply with all safety warnings and usage precautions.
2. Do not use this product for other non-designated purposes to avoid unexpected risks.
3. This product is only applicable to users within the specified age group and scope of application. Please strictly comply with relevant age restrictions and warnings.
4. If there are any abnormalities in the product, please stop using it immediately and contact the after-sales service center for consultation or to arrange for repair.

Environmental requirements for use

1. Please use in a dry and well-ventilated environment to avoid extreme environmental conditions such as water activation, high temperature, high humidity, and extremely low temperature.
2. Avoid direct sunlight or contact with fire sources to prevent product damage or fire.
3. Please ensure a stable usage environment and prevent the product from being hit or dropped to avoid damage.

Safety Operation Guidelines

1. When foreign objects are found on the surface of the product, please immediately stop using and remove the foreign objects before continuing to use them.
2. When using this product continuously for a long time, please rest in good time to avoid excessive fatigue.

Maintenance and upkeep

1. Regularly maintain and clean the product. Use a dry cloth for wiping, paying attention to avoiding the use of corrosive substances such as alcohol, acid and alkali solutions.
2. Do not disassemble the product or replace components on your own. If you encounter any malfunctions, please contact the after-sales service center.

Emergency handling measures

1. When there are abnormal situations or accidents with the product, please stop using it as soon as possible.
2. If overheating, smoking, or abnormal sound are found, please immediately cut off the power supply and contact the after-sales service center.
3. If the product involves an emergency situation that may harm personal safety, please call the emergency rescue number in a timely manner.

Disclaimers

We attach great importance to the safety and quality of our products, but cannot assume responsibility for safety accidents caused by improper use or operation.
