	<p>WEEE symbol. Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist.</p> <p>Check with your Local Authority or local store for recycling advice.</p>

WORK AREA

1. Operate in a safe work environment. Keep your work area clean, well-lit and free of distractions.
2. Keep anyone not wearing the appropriate safety equipment away from the work area.
3. Store unused tools properly in a safe and dry location to prevent rust or damage. Lock tools away and keep out of the reach of children.

PERSONAL SAFETY

WARNING! Wear personal protective equipment approved by the Canadian Standards Association (CSA) or American National Standards Institute (ANSI).

PERSONAL PROTECTIVE EQUIPMENT

1. Always wear impact safety goggles that provide front and side protection for the eyes. Eye protection equipment should comply with CSAZ94.3-07 or ANSI Z87.1 standards based on the type of work performed.
2. Wear gloves that provide protection based on the work materials or to reduce the effects of tool vibration.
3. Wear protective clothing designed for the work environment and tool.
4. Non-skid footwear is recommended to maintain footing and balance in the work environment.

PERSONAL PRECAUTIONS

Control the tool, personal movement and the work environment to avoid personal injury or damage to tool.

1. Do not operate any tool when tired or under the influence of drugs, alcohol or medications.
2. Avoid wearing clothes or jewelry that can become entangled with the moving parts of a tool. Keep long hair covered or bound.

SPECIFIC SAFETY PRECAUTIONS

1. Use the correct tool for the job. This tool was designed for a specific function. Do not modify or alter this tool or use it for an unintended purpose.
2. Ensure that the reel is properly installed before connecting the input and output air hoses.
3. Remove system pressure immediately if a leak occurs in the hose or reel, or if the reel ceases to wind and unwind.
4. Release the hose slowly and control it as it retracts.

WARNING! DO NOT let comfort or familiarity with product (gained from repeated use) replace strict adherence to the tool safety rules. If you use this tool unsafely or incorrectly, you can suffer serious personal injury.

WARNING! Direct exposure of pressurized air or fluids to skin could result in severe bodily injury.

INSTALLATION

1. Take out all the spare parts from the box. (The picture is only for reference, Please make the object as the standard.)

B

Ø10*80

EXPANSION BOLT

B

Ø10*80
EXPANSION BOLT

EXPANSION BOLT INSTALLATION ORDER

2. Drill 2 holes as the picture, and then install the swivel bracket on the wall.

3. Put the product on the bracket.

OPERATING INSTRUCTIONS

1. Pull the hose straight outward from the reel. A clicking noise will be heard.

2. Extend the hose whilst the clicking noise can be heard and stop at the desired length

4. To unlock the hose and allow it to rewind, extend it further until the clicking stops and then let it retract. Keep hold of the hose all the time. If you let go of the hose it will rewind in an uncontrolled manner at high speed and could cause an injury or damage surrounding objects. Note: It is easier for the hose to retract if it is not under pressure. Turning off the air compressor makes this easier.

CARE AND MAINTENANCE

1. Clean the air hose reel using a light moistened cloth. Only use mild cleaning agents, never solvents or corrosive chemicals.
2. Never immerse the air hose reel in water for cleaning
3. If the hose is dirty, wipe it clean before rewinding it on to the reel.
4. Do not use the air hose reel in extremely high or low temperatures since it may become difficult to handle.

DISPOSAL

This products should be disposed of in accordance with local regulations. If you are unsure how to proceed, contact your local authority.

Lock / to tighten or secure.

Lock / to tighten or secure.
