Your safety and the safety of others are very important.

We have provided many important safety messages manual and your appliance. Always read and obey all safety messages.

This is the safety alert symbol:

All safety messages will follow the safety alert symbol and the word “DANGER” or “WARNING” .

DANGER

WARNING

These words mean:

You can be killed or seriously injured if you don't immediate follow instructions.

All safety messages will tell you what the potential hazard is, tell you how to reduce the chance of injury, and tell you what can happen if the instructions are not followed.

PREPARING YOUR ICE MAKER FOR USE

IMPORTANT SAFETY TIPS

When using electrical appliances, basic safety precautions should be followed to reduce the risk of fire, electric shock, and injury to persons or property. Read all instructions before using any appliance.

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

- Do not operate this , or any other appliance with a damaged cord.

If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.

This ice-maker must be positioned so that the plug is accessible .

Connect to properly polarized outlets only. No other appliance should be plugged into the same outlet. Be sure that the plug is fully inserted into the receptacle.

- Do not run the power cord over carpeting or other heat insulators. Do not cover the cord. Keep cord away from traffic areas, and do not submerge in water.

- We do not recommend the use of an extension cord, as it may overheat and become a risk of fire. If you must use an extension cord, use No.0.75mm² minimum size and rated no less than 16A/250V~ with a plug.

WARNING: This appliance must be earthed.

- Unplug the ice maker before cleaning or making any repairs or servicing.

- Exercise caution and use reasonable supervision when appliance is used near children.

- Do not use your ice-maker outdoors. Place the ice-maker away from direct sunlight and make sure that there is at least 6 inches of space between the back of your unit and wall. Keep a minimum distance of 6 inches on each side of your unit free.

- Do not use other liquid to make the ice-cube other than water.

- Do not clean your ice maker with flammable fluids. The fumes can create a fire hazard or explosion.

- Do not tip over.To avoid a hazard due to instability of the appliance, it must be placed at a even or flat surface.

- If the ice maker is brought in from outside in wintertime, give it a few hours to warm up to room temperature before plugging it in.

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- This appliance must be earthed.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
- This appliance is intended to be used in household and similar applications such as
 - staff kitchen areas in shops, offices and other working environments;
 - farm houses and by clients in hotels, motels and other residential type environments;
 - bed and breakfast type environments;
 - catering and similar non-retail applications.

- **Warning: Risk of fire/flammable materials used.** Please according to local regulations regarding disposal of the appliance for its flammable blowing gas.
- **WARNING:** Keep ventilation openings, in the appliance enclosure or in The built-in structure, clear of obstruction.
- **WANING:** Do not damage the refrigerant circuit.
- **WARNING:** Do not use mechanical devices or other means to accelerate the defrosting process or ice harvesting process, other than those recommended by the manufacturer.
- **WARNING:** Do not use other type of electrical appliances inside the ice-maker.

IMPORTANT:

The wires in this mains lead are colored in accordance with the following code: Green or Green with a strip yellow: Grounding

Blue: Neutral

Brown: Live

To avoid a hazard due to instability of the appliance, it must be placed at an even or flat surface.

- This appliance is not intended for use by persons (including children)

With reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by-a person responsible for their safety.

- Young children should be supervised to ensure that they do not play with the appliance.
- Please according to local regulations regarding disposal of the appliance for its flammable refrigerant and blowing gas. Before you scrap the appliance, please take off the doors to prevent children trapped.

ASSEMBLE HANDLE

Rotate the handle to the same angle as the mounting hole on the machine, Put It on the machine.

CONNECTING YOUR ICE MAKER

DANGER

* Improper use of the grounded plug can result in the risk of electrical shock. If the power cord is damaged please call our customer service.

1. This unit should be properly grounded for your safety. The power cord of this appliance is equipped with a three-prong plug which mates with standard three prong wall outlets to minimize the possibility of electric shock.

2. Plug your appliance into an exclusive, properly installed, grounded wall outlet. Do not under any circumstances, cut or remove the third (ground) prong from the power cord. Any questions concerning power and/or grounding should be directed toward a certified electrician.

3. This appliance requires a standard 220-240volt, 50Hz electrical outlet with three-prong ground.

CLEANING AND MAINTAINING YOUR ICE MAKER

Before using your ice maker, it is strongly recommended to clean it thoroughly.

1. Take out the ice basket.
2. Clean the interior with diluted detergent, warm water and a soft cloth.
3. Then use the water to rinse the inside parts, and drain out the water from the draining port by unplugging the Water drainage cap on the bottom.
4. The outside of the ice maker should be cleaned regularly with a mild detergent solution and warm water.
5. Dry the interior and exterior with a soft cloth.
6. When the machine is not in use for a long time, open the water drain cap to drain water completely out from the water reservoir.

USING YOUR ICE MAKER

1. Open the cover, remove the ice basket and pour water into tank.
Keep water level below the water level mark.
2. Press “**ON/OFF**” button on the control panel to begin the ice making cycle.
3. Select the ice cube size by pressing the “**SELECT**” button. If the room temperature is lower than 15°C, it is recommended to select small ice cube in order to avoid ice sticking together.
4. The ice making cycle lasts approx. 6 to 13 minutes, depending on election of ice cube size and the room temperature. The recommended room temperature is 10°C to 38°C.
5. If water pump can't inject water, the ice maker will stop automatically, and the “**ADD WATER**” indicator will be on. Press “**ON/OFF**” button, fill water up to the max. water level mark and press “**ON/OFF**” button again to turn on the unit again. Allow the refrigerant liquid inside the compressor at least 3 minutes to settle before restarting.
6. The ice maker stops when the ice basket is full and the “**ICE FULL**” indicator will be on.

Warning: Direct sunlight or sunlight reflection may cause infrared sensor malfunction. If the unit doesn't stop even ice cubes obstruct sensor, move the unit where no sunlight.

7. Change water in the water reservoir every 24 hours to ensure a

reasonable hygiene level. If unit isn't to be used, drain all the water and dry the tank.

TROUBLESHOOTING

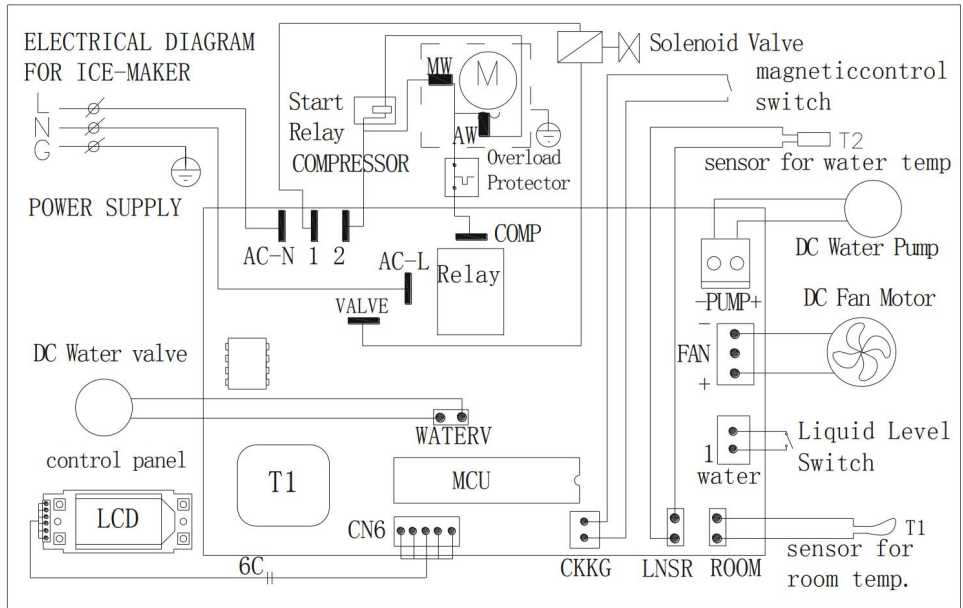

PROBLEM	POSSIBLE CAUSE	SOLUTION
“ADD WATER” indicator is on.	Lack of Water.	Stop the ice maker, fill water, and press “ON/OFF” button again to restart the unit.
“ICE FULL” indicator is on.	Ice is full in basket.	Remove ice from ice basket. Continuous press “Select” button 5 seconds, the unit could make ice 10 cycles even “Ice” indicator is on.
