This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

 **WARNING:**

Please read this manual carefully before using the product. Failure to do so may result in serious injury. SAVE THIS MANUAL
SAFETY PRECAUTIONS

When using electrical appliances, basic safety precautions should always be followed including the following:

Read all instructions carefully.

Keep it away from children!

This appliance can be used by children aged 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

To avoid electrical shock:

- 1) DO NOT run the cleaner continuously for more than one hour at a time, as doing so can damage the internal components.
- 2) DO NOT operate the unit without fluid in the tank. Always ensure the fluid is no higher than the max mark, always ensure there is a minimum depth of 7cm.
- 3) DO NOT drop any item into the tank as this may cause damage to the transducer. Always place the items gently into the tank and use the basket whenever possible.
- 4) The more items that you place in your cleaning bath the less efficient it will clean. It is not advised to overlap items. Always allow plenty of clear space between the items.
- 5) Do keep the lid on during use. This will prevent splashes and reduce evaporation of the fluid.
- 6) Never immerse the machine or power cord in water or other liquid.
- 7) DO NOT touch the power plug with wet hands, especially when inserting or removing the plug.

- 8) DO NOT touch the unit if the machine has fallen into water during operation. Remove the power plug from the socket first.
- 9) DO NOT disassemble the machine, except by professionals.
- 10) UNPLUG the power source while filling or emptying the tank.
- 11) DO NOT spray water or liquid over the device and the control panel.
- 12) DO NOT operate the cleaner without proper grounding.
- 13) DO NOT place the device on a soft surface, where the vents could be blocked.
- 14) Upon completion of the cleaning cycle, turn the heater knob off and isolate the machine from the power source.
- 15) Take care when adding or removing items from the cleaning tank as the fluid is likely to be hot and displaced fluid can damage the internal components. Any displaced fluid must be dried up immediately.
- 16) In the event of a malfunction/emergency, disconnect the power supply by removing the power plug from the electrical outlet.
- 17) When heating is required, the water level should not be less than 2/3 full
- 18) If the supply cord is damaged, it must be replaced by a special cord or assembly available from the manufacturer or its service agent.
- 19) The connector must be removed before the appliance is cleaned and that the appliance inlet must be dried before the appliance is used again.
- 20) This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

SAVE THESE INSTRUCTIONS

USE PRECAUTIONS

TO PREVENT SERIOUS INJURY AND DEATH FROM TIPPING:

1. **DO NOT SIT OR STAND ON THIS ITEM.**
2. When the machine is used several times continuously, in order to avoid the damage and failure of the parts caused by overheating, the machine will enter into a system of self-protection, it can be resumed after about 5 minutes.
3. Do not get water directly from the tap- Flooding of the device and power switches will lead to malfunction.
4. Do not add anti-toxic , sterilizing or acidic solvents into the cleaning water.
 - May cause deterioration of resin and damage of stainless steel.
5. Do not clean pearls and other low surface hardness articles Morse hardness of less than 8).
 - Can cause damage discoloration or loss of luster.
6. Do not wash rings , necklaces with gems and diamonds for long periods of time.
 - May cause gems / diamonds to fall off
7. **DO NOT** use the same socket as TV , radio and computer.
 - Can affect the picture clarity or cause noise.
8. Prevent the device from falling and a violent shaking- This can cause breakage deformation, and malfunction.
