SCOPE OF USE

• The fruit press is only suitable for pressing pre-ground fruit.
• The fruit press is not suitable for industrial use.

PICTOGRAMME EXPLANATION

Materialist food safety.

2.ASSEMBLY&OPERATION

• Rinse the fruit press thoroughly with clear water before each use!
• Dress the internal current detectors with a suitable press cloth (if desired).
• Fill the inside of the tub with the fruit to be pressed (already ground!)
• Place a suitable container under the outflow of the press, or place the press in a large container to absorb the leaking liquid.

• Rotate the spindle using the handle to squeeze the fruit. You may need additional staff to help keep the press.
• When you reach the bottom of the press plate and want to increase the pressure further, you loosen the spindle and fill additional fruit.
• Rinse the fruit press thoroughly with water after each use.

3.MAINTENANCE/CLEANING

• Rinse the fruit press thoroughly with water after each use.
• The connection points of screw-nut,screw-piston and
unpainted part of the screw should be placed before each press and after each
Cleaning of the press with a thin layer of edible oil.
• Store the appliance in a dry and clean environment.
