This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

Warning-To reduce the risk of injury, user must read instructions manual carefully.

MATTERS NEED ATTENTION

Warning

Enclosure enclosure/Cabinet is only coating but NOT insulated. ONLY a qualified electrician could deal with the inside circuits and electrical parts. Warning Labels or other signs could be posted according to relative laws or codes if necessary.

DO NOT Permit children to play with this item.

The Electrical Enclosure enclosure could be waterproof ONLY all the holes have been sealed by a soft gasket or plug. For the holes cut by customer, please use an IP66 Grade Gasket or equivalent parts to keep waterproof. This item MUST BE GROUNDED. Please refer to the "Body installation-Assembly the earth wire".

Tips

Any damage on the finish coating could lead to rust, and tiny surface damage could be repaired by re-painting. But it is not recommended when painting on large scale damages.

The working temperature should be lower than 80°C, otherwise, it could lead to damage to the painting surface and the failure of sealing.

FEATURES OF PRODUCTS

- PU foaming sealing strip ensures a protection grade of IP66 to enclosure body.
- Bosses of various types and sizes allow easy installation of inlet/outlet lines.
- Galvanized mounting plate can also be used for wiring outside the enclosure.
- Multiple protection grooves are designed at the enclosure opening that can not only reinforce the structure but also prevent the entry of dirt or water when the door is opened.
- Professional lock system with double-teeth cylinder allows easy locking/unlocking.

SPECIFICATION DATA

Color	RAL7035(White Gray)/RAL2000(Orange)
Body Material	Cold Rolled Steel
Inner plate	2.0mm Galvanized Plate
Finish	Powder Coating
Construction	Continuously Welded
Ambient Temperature	-40~+55°C
Gasket Material	Seamless Foam/Nylon(washers or plugs)
Certification	CE ROHS UL50
Ratings	NEMA 4/NEMA 4X
Protection Grade	IP66 IK10

Model	Height*Width*Depth (mm)	Material

INSTALLATION STEPS

A: Mounting Plate Installation

Adopts 4pcs M8 hex head flange nut assembly mounting plate with enclosure body. See Figure 1.

Notice: already assembled on enclosure body when ex-factory.

Figure 1

B: Bottom Sealing Plate Installation

Adopts M5*10mm cross self-tapping screws assembly sealing washer, bottom sealing plate with enclosure body. See Figure 2. According to your usage requirement to mount it or not.

Figure 2

C: Rain Cap and Wall Mounting Brackets Installation

First align the rain cap hole with the enclosure backside holes, Adopts 4pcs M8*16mm hex head bolt, M8 O-ring, M8 nuts fix the rain cap and 4pcs wall mounting brackets on the enclosure, then fix the enclosure on the wall via the 4pcs wall mounting brackets. See Figure 3.

Figure 3

D: Grounding Wire Installation

Adopts 2pcs M6 hex head flange nut assembly grounding wire on M6*12mm copper bolt of enclosure door and enclosure body. See Figure 4.

Notice: already assembled on enclosure body when ex-factory.

Figure 4

E:Enclosure Door Installation

The hinges are secured to the enclosure with M4*16 cross countersunk screws and hinge plastic parts,then the door is secured with latches on the hinges.Adopts fixed pin assembly enclosure door on hinge. See Figure 5.

Notice:Enclosure door already assembled on enclosure body when ex-factory.

Figure 5

F:Door Lock Installation

Adopts lock nuts assembly enclosure lock and lock cover on enclosure door. Adopts a matched key to meet the enclosure door opening and closing.

See Figure 6.

Notice:already assembled on enclosure body when ex-factory.

Figure 6

Warning:when locking the enclosure door,please turn lock core 90° from vertical direction to horizontal direction,make sure to meet best protection level.
